Donius,2014-08-26 Updated edition of the author s Thought revolution published in 2012 **The Human Genius Project** Gary Crenshaw,2001 The Human Genius Project is a solution looking for a problem This ideology Human Genius is a testament to the accumulation of life s skills toward maturity of mind This maturity is more than ethical or moral Its base is geared towards intellectual emotional spiritual and psychological growth The Human Genius manual is an instructional guide for life s skills and the evolution of mind The Manuel is broken down into 3 parts PART I The first section will explain the mind set of man It will encompass what it takes to achieve your dreams and it will try to explain why some never achieve self fulfillment It will explain the role of the imagination and how the mind set provides a stumbling block in our lives The importance of self definition and the different personality types will be discussed The need for self responsibility and the need for faith will be expounded upon The affects of criticism will be explored The basic attitudes and impulses will be explained The reason why good and bad things take place and the positive and negative affects of the WILL shall be examined The Genius Project recognizes that a

man's mind set sets the stage for the education and transition of the mind. Within the mind set lies the understanding of the causes and effects of life. This section will inspire and teach one to conquer. Your mind set is the prelude to the future. The future hinges on the perception and the belief system that is reinforced. This belief system, the perception reinforces and foreshadows why bad things take place one after another. What lies within the shadows of bad things taking place is bad thinking and bad decision making from the past. In order to correct this cyclic effect, one must learn the lessons that life teaches. The lessons that life teaches should lead to the identification and uncovering of the true innate ability of man. This innate ability that lies dormant is the true genius of man. It is this innate genius that The Human Genius Project was designed to release. This genius is more than the mental processing of information but can be likened to a well-defined talent that which lies innately could be the genius of song writing, sports, art, mathematics, etc. etc. This genius can be released by creating alternate personalities to free the innate being. This process incorporates mentally changing your background and creating that which compliments the inner genius of the mind. The key to this process is the imagination. God used his imagination to lay the foundation of the universe. You must imitate the creator. You must use your imagination to lay the foundation for your dreams. This foundation that has its fortitude in the genius of one's imagination will lead to power. It leads to power over oneself and power over others. The imaginative energy will add life, breath, depth, and dimensions to your ideas. The persistent intentional and misdirected use of the imagination leads to mediocrity. The thing that puts mediocrity in one's life is the persistent inadequacies of society that stagnate the inner genius. If one takes time to remember his dreams as a kid, what will be revealed are dreams that encompass greatness. The transition from childhood to adult life deadens the inner voice that was awakened when you were but a child. There was a shift in your mind set brought on by the imposed social, political, psychological, and religious systems of this world structure. Most of us have been manipulated into giving up our minds and WILLS to the systems and structures of society. The Human Genius Project wishes only to resurrect the Lazarus in you. This resurrection must first start with self-definition. This is the cornerstone of your success and awakening. Too many of us look for self-definition as well as direction from exterior sources. True self-definition and true direction come only from within. p
