already weaponizing AI while conservatives sleepwalk straight into calamity unless they're ready for what's coming. In Code Red, Breitbart social media director Wynton Hall exposes where that power hides, how it operates, how conservatives can navigate the AI political battlescape, avert its landmines, and turn peril into promise. AI decides what you see and what gets censored. It's quietly rewiring our whole way of life: Jobs, Schools, Family, Church. Even national security. All of it will shock, test our civic order. Inside Code Red, you will discover why AI is wired for woke indoctrination and how to resist it. How elites plan to weaponize AI job losses to push dependency. How America can beat China without becoming China. How to prepare your kids for the blinding speed of AI disruption. The new national security threats AI unleashes and how we defend against them. Why AI girlfriends are luring millions and what it will take to preserve authentic human connection. How AI will test faith and meaning and why spiritual renewal may be its most surprising outcome. Urgent, deeply researched, and written with page-turner elegance, Code Red is the conservative battle plan for the AI era. Either we wake up and fight back or we lose everything that made America free.
