diffusion in developing countries Building on this analysis it proposes multilateral actions under the WTO that will be beneficial from both a trade and a climate change perspective

Climate Change and Global Sustainability Akimasa Sumi, Nobuo Mimura, Toshihiko Masui, 2011 Because climate change involves a wide range of interlinked problems solutions must be pursued in an interdisciplinary manner This book adopts just such a holistic approach in examining various aspects of global warming offering a comprehensive overview First the mapping of knowledge about global warming is presented as a framework for addressing the issue This is followed by a discussion of risk in relation to global warming and of the communication of risk between academia and society Impacts adaptation strategies the institution of a low carbon society and other policy concerns are then reviewed Because human behavior is a critical factor in the move toward a low carbon society issues involving quality of life are also presented with an emphasis on philosophy Finally the book considers the integration of three scenarios a low carbon society a resource circulating society and a society in harmony with nature and presents a comprehensive vision of the future

Beyond Naturalness David N. Cole, Laurie Yung, 2010-03-18 Beyond Naturalness brings together leading scientists and policymakers to explore the concept of naturalness its varied meanings and the extent to which it provides adequate guidance regarding where when and how managers should intervene in ecosystem processes to protect park and wilderness values The main conclusion is the idea that naturalness will continue to provide an important touchstone for protected area conservation but that more specific goals and objectives are needed to guide stewardship
