Machinations of the Space Princess (Colour) James Desborough, 2013-06-29. *Machinations of the Space Princess* is a Science Fantasy role-playing game. That means it's very much about style over substance, mixing science fiction, magic, and psionics in a game world that owes much more to *Metal Hurlant* and *Star Wars* than it does to *2001* or *Bova's Grand Tour*. This is a game of strangeness and fun, of space pirates and beautiful alien princesses, of living planets and robot hordes, of blasters at noon. This is *Sexy Sleazy Swords and Sci-Fi*. A full game combining old and new school thinking, packed with GM and player advice, and with simple tools for creating your own monsters, adversaries, weapons, armour, ships, and alien races.
