[The History of the Rise and Fall of the World's Religions and their Evolution](#) Younus Samadzada, 2022-01-14 This book chronologically documents the rise and fall of the major religions of the world and explores the role that various cultural factors such as dance, trance, music, song, and language have played in this evolution. The role that leaders play in the evolution of religion is also discussed. Starting from the primitive religions of hunter-gatherer societies in which religion was not part of any institution, the next stages of human life from the agricultural revolution to the modern religions of today are discussed. Among the modern religions discussed are Judaism, Buddhism, Christianity, Islam, Scientology, and numerous others. The reader is further provided with a unique perspective on the potential good and evil aspects of religion and the very reality of the existence of a God or gods and the possible downfalls of the religious belief system.
