**Digital Renaissance** Joel Waldfogel,2018-11-13 How digital technology is upending the traditional creative industries and why that might be a good thing The digital revolution poses a

mortal threat to the major creative industries music publishing television and the movies The ease with which digital files can be copied and distributed has unleashed a wave of piracy with disastrous effects on revenue Cheap easy self publishing is eroding the position of these gatekeepers and guardians of culture Does this revolution herald the collapse of culture as some commentators claim Far from it In Digital Renaissance Joel Waldfoegel argues that digital technology is enabling a new golden age of popular culture a veritable digital renaissance By reducing the costs of production distribution and promotion digital technology is democratizing access to the cultural marketplace More books songs television shows and movies are being produced than ever before Nor does this mean a tidal wave of derivative poorly produced kitsch analyzing decades of production and sales data as well as bestseller and best of lists Waldfoegel finds that the new digital model is just as successful at producing high quality successful work as the old industry model and in many cases more so The vaunted gatekeeper role of the creative industries proves to have been largely mythical The high costs of production have stifled creativity in industries that require ever bigger blockbusters to cover the losses on ever more expensive failures Are we drowning in a tide of cultural silt or living in a golden age for culture The answers in Digital Renaissance may surprise you
