**Corruption, Institutions, and Fragile States** Hanna Samir Kassab, Jonathan D. Rosen, 2018-12-11 This book examines the relationship between state fragility and corruption. It analyzes a variety of regions throughout the world including Latin America, Central Asia and the Middle East, Africa, Central America and Mexico, South America and Russia. States that are plagued by high levels of state fragility and corruption facilitate illicit activities and other criminal enterprises.

Challenges to Democratic Governance in Developing Countries Gedeon Mudacumura, Göktuğ Morçöl, 2014-01-04 Despite the large amounts of human and financial resources invested to foster democratic governance in developing countries, statistics show that the majority of these countries have not yet achieved significant improvements in living standards. While some regions make strides towards improving the living conditions of their citizens, Sub-Saharan Africa, for instance, is still trapped in poverty with more than 40% of its 600 million people living below the internationally recognized absolute poverty line of one US dollar per day. Poor governance and corruption should be highlighted as the most important systemic factors contributing to poverty in developing countries. As a result, the institutional foundations of these countries are weakened, public funds are misappropriated, and policies and programs aimed at reducing poverty and fostering sustainable economic growth are undermined. It is therefore not surprising that a 2008 Transparency International report found a direct link between corruption and the failure of the societal institutions designed to achieve the Millennium Development Goals in the majority of developing countries. This book investigates the problems of democratic governance, particularly as they relate to corruption, and also whether democracy should be based on universal principles or local context and historical factors. It also analyses the role of law in promoting democratic governance and curbing corruption, and if governmental, non-governmental organizations, and civil societies are effective in promoting democratic governance and curbing corruption. This book will go beyond identifying the challenges and offer plausible solutions that could be adapted to various developing countries. It is premised on the importance of bridging theory and practice, which has been lacking in most local and international development publications, making it of interest to scholars and policy makers alike concerned with public administration in developing countries.

Corruption: An Impediment to Development, **Institutions, Governance and the Control of Corruption** Kaushik Basu, Tito Cordella, 2018-04-04 This book considers how emerging economies around the world face the challenge of building good institutions and effective governance since so much of economic development depends on having these in place. The promotion of shared prosperity and the battle against poverty require interventions to reach out to the poor and the disadvantaged. Yet time and again we have seen such effort foiled or diminished by corruption and leakage. The creation of good governance and institutions and structures to combat corruption require determination and passion but also intricate design rooted in data analysis and research. In this book leading

researchers from around the world bring to the table some of the best available ideas to help create better governance structures design laws for corruption control and nurture good institutions *African Economic Development* Steven Langdon, Archibald R.M. **The Fragility of the Lebanese State** Natalie Ann Ghosn, Hanna Samir Kassab, 2024-08-26 In 2024 Lebanon entered the fifth year of a crippling economic crisis that has decimated the value of the Lebanese pound crippled its medical and education systems and limited the state provision of essential public services such as electricity which is not available for more than a few hours a day by state provision While all those living in Lebanon feel the effects of these dire circumstances those from marginalized communities such as migrant and domestic workers the elderly children the LGBTQ community people with disabilities or poor health etc have been disproportionately affected To add fuel to the fire the already dire refugee situation in Lebanon has been exasperated by one national crisis after another from the Beirut Blast of August 4 2020 to the COVID 19 Pandemic to government collapse and finally the rapid devaluation of the Lebanese Pound LBP There have been many effects among the most dire is the migration of the highly educated Lebanese citizenry from Lebanon to third countries The substantial brain drain from Lebanon is likely to have a significant impact on the country s future for generations to come The Fragility of the Lebanese State explores the causes and potential solutions of this crisis

Cowan, 2021-01-07 The articles in this special issue of the New England Journal of Public Policy are unusual in two respects First they reflect the practical wisdom of seasoned actors rather than the theoretical knowledge of academicians The typically unexamined assumption of the academy is that good practice in the world is simply the application of sound theory

from the academy It does not take long in the public arena however to discover that leaders there are not applying theory from the academy to the decisions they face Rather they base their interventions on what they have learned about people organizations conflict race and politics in the rough and tumble of living in the world Their working understandings may be valuably leavened by theory but are not guided primarily by it Second the authors were not separate individuals working on isolated issues like children engaged in parallel play but rather partners in a fluid informal collaborative social action network operating in an environment of constantly shifting challenges and possibilities for change The authors are not a collection of Is they are a we They decided pragmatically to connect their power their political and financial and social capital at critical moments to accomplish shared goals The network grew more powerful in the process becoming more than the sum of its organizational parts This volume is ours as was the collective action out of which it emerged Like a choir s songs its articles give voice to a group s experiences Each is a part of a larger whole Whenever I speak about how Hurricane Katrina changed New Orleans an audience member invariably asks Would the changes you described have occurred without a hurricane The simple answer is no but a fuller response is required to do justice to the situation Nature can create temporary vacuums but it cannot fill them The coalition led public meetings action campaigns election fights and legislative lobbying recounted here and the transformations they caused might not have happened in the wake of the great storm But they did In these pages you will meet some of those whose practical wisdom courage and integrity drove those changes
