Farm Journal and Country Gentleman, 1904 **Farm Journal**, 1900 **Language and Reflection** Anne Ruggles Gere, 1992 English Alive, 2005 **REAL Volume 7 (1991)** Grabes, 1991 **George Orwell** John Rodden, 2017-09-04

The making of literary reputations is as much a reflection of a writer's surrounding culture and politics as it is of the intrinsic quality and importance of his work. The current stature of George Orwell, commonly recognized as the foremost political journalist and essayist of the century, provides a notable instance of a writer whose legacy has been claimed from a host of contending political interests. The exemplary clarity and force of his style, the rectitude of his political judgment along with his personal integrity have made him, as he famously noted of Dickens, a writer well worth stealing. Thus the intellectual battles over Orwell's posthumous career point up ambiguities in Orwell's own work as they do in the motives of his would-be heirs. John Rodden's *George Orwell: The Politics of Literary Reputation* breaks new ground in bringing Orwell's work into proper focus while providing much original insight into the phenomenon of literary fame. Rodden's intent is to clarify who Orwell was as a writer during his lifetime and who he became after his death. He explores the dichotomies between the novelist and the essayist, the socialist and the anti-communist, and the contrast between his day-to-day activities as a journalist and his latter-day elevation to political prophet and secular saint. Rodden's approach is both contextual and textual, analyzing available reception materials on Orwell along with audiences and publications decisive for shaping his reputation. He then offers a detailed historical and biographical interpretation of the reception scene, analyzing how and why individuals and audiences cast Orwell in their own images and how these projected images served their own political needs and aspirations. Examined here are the views of Orwell as quixotic moralist, socialist renegade, anarchist, English patriot, neo-conservative forerunner of cultural studies, and even media and commercial star. Rodden concludes with a consideration of the meaning of Orwell.

Or The Learning Rainforest: Great Teaching in Real Classrooms Tom Sherrington, 2017-10-23. The Learning Rainforest is an attempt to capture various different elements of our understanding and experience of teaching. It is a celebration of great teaching, the joy of it, and the intellectual and personal rewards that teaching brings. It is aimed at teachers of all kinds, busy people working in complex environments with little time to spare. The core of the book is a guide to making teaching both effective and manageable; it provides an accessible summary of key contemporary evidence-based ideas about teaching and learning and the debates that all teachers should be engaging in. It's a book packed with strategies for making great teaching attainable in the context of real schools. The Learning Rainforest metaphor is an attempt to capture various different elements of our understanding and experience of teaching. Tom's ideas about what constitutes great teaching are drawn from his experiences as a teacher and a school leader over the last 30 years, alongside everything he has read and all the debates he's engaged with during that time. An underlying theme of this book is that a career in teaching is a process of continual personal development and professional learning, as is engaging in fundamental debates that rage on about the kind of education

Doing School Denise Clark Pope,2008-10-01 This book offers a highly revealing and troubling view of today s high school students and the ways they pursue high grades and success Denise Pope veteran teacher and curriculum expert follows five motivated and successful students through a school year closely shadowing them and engaging them in lengthy reflections on their school experiences What emerges is a double sided picture of school success On the one hand these students work hard in school participate in extracurricular activities serve their communities earn awards and honours and appear to uphold school values But on the other hand they feel that in order to get ahead they must compromise their values and manipulate the system by scheming lying and cheating In short they do school that is they are not really engaged with learning nor can they commit to such values as integrity and community The words and actions of these five students two boys and three girls from diverse ethnic and socioeconomic backgrounds underscore the frustrations of being caught in a grade trap that pins future success to high grades and test scores Their stories raise critical questions that are too important for parents educators and community leaders to ignore Are schools cultivating an environment that promotes intellectual curiosity cooperation and integrity Or are they fostering anxiety deception and hostility Do today s schools inadvertently impede the very values they claim to embrace Is the success that current assessment practices measure the kind of success we want for our children
