An important aspect in analysing this process is to examine how big the influence of the European Union, which Ireland joined in 1973 after its first application in 1962, was and is. Is European integration a key aspect of Ireland's rise to prosperity or did national policy making play the main role? How important is the EU to Ireland's development nowadays and what is to be expected in the future. *The Common Fisheries Policy of the European Union* Craig McLean, 2008 Contributes original material taken from interview transcripts on the underresearched Gannan fishing industry. *Financial Change and European Union Politics* Elliot Ashley Posner, 2002 *EUSA Review*, 2008 *The European Union* Norris Smith, 2005 Examines the EU from its formation with a discussion of the economic, political, and social impact of the organization upon its own members and the rest of the international community.
