The origins of TikTok can be traced back to the idea of short-form video sharing. ByteDance recognized the potential of creating a platform where users could express themselves in 15-60 second video clips. TikTok was introduced to the international market in September 2017 and merged with the lip-syncing app Musical.ly in 2018, effectively increasing its user base. This merger allowed the platform to flourish with an even larger pool of creative content creators.

TikTok's meteoric rise to popularity can be attributed to several factors. Firstly, its interface is user-friendly, making it easy for anyone to create and share content.
