Global Positioning for Financial Services Hazel J. Johnson, 2000 Global Positioning for Financial Services is a broad based examination of the changes occurring in financial services The forces of privatization and securitization are but two of the factors that are changing the way financial services are delivered Technology has enabled direct sale of securities to ultimate investors in ways that have not been possible until now Regulators must adjust their perceptions of risk and reward to maintain safe systems Astute industry participants must have a clear understanding of these dynamics in order to develop effective strategies for the future

Risk Management and Value Creation in Financial Institutions Gerhard Schroeck, 2002-10-01 An analysis of the links between risk management and value creation Risk Management and Value Creation in Financial Institutions explores a variety of methods that can be utilized to create economic value at financial institutions This invaluable resource shows how banks can use risk management to create value for shareholders addresses the advantages of risk adjusted return on capital RAROC measures and develops the foundations for a model to identify comparative advantages that emerge as a result of risk management decisions It is the only book needed for banking executives interested in the relationship between risk management and value creation

Value and Capital Management Thomas C. Wilson, 2015-08-31 A value management framework designed specifically for banking and insurance The Value Management Handbook is a comprehensive practical reference written specifically for bank and insurance valuation and value management Spelling out how the finance and risk functions add value in their respective spheres this book presents a framework for measuring and more importantly influencing the value of

the firm from the position of the CFO and CRO Case studies illustrating value enhancing initiatives are designed to help Heads of Strategy offer CEOs concrete ideas toward creating more value and discussion of hard and soft skills put CFOs and CROs in a position to better influence strategy and operations The challenge of financial services valuation is addressed in terms of the roles of risk and capital and business specific value trees demonstrate the source of successful value enhancement initiatives While most value management resources fail to adequately address the unique role of risk and capital in banks insurance and asset management this book fills the gap by providing concrete business specific information that connects management actions and value creation helping readers to Measure value accurately for more productive value based management initiatives and evaluation of growth opportunities Apply a quantitative risk adjusted value management framework reconciled with the way financial services shares are valued by the market Develop a value set specific to the industry to inspire initiatives that increase the firm s value Study the quantitative and qualitative management frameworks that move CFOs and CROs from measurement to management The roles of CFO and CRO in financial firms have changed dramatically over the past decade requiring business savvy and the ability to challenge the CEO The Value Management Handbook provides the expert guidance that leads CFOs and CROs toward better information better insight and better decisions
