

The book cover features a vibrant illustration of a pond. Two koi fish are the central focus: one is a reddish-orange with a white patch on its back, and the other is white with a large orange patch on its side. They are swimming in clear blue water. The pond is decorated with large green lily pads and bright red flowers. The background is a deep blue with small white specks, suggesting a night sky or a starry pond. The title 'COGNITIVE PSYCHOLOGY' is written in a large, white, serif font across the top. Below it, 'EIGHTH EDITION' is written in a smaller, white, sans-serif font. The authors' names are listed in a white, serif font at the bottom right.

Contemporary Approaches to Linguistics and Teaching Methods in Business and Professional Communication

Elena N. Malyuga, 2025-12-21 This book presents the proceedings of the 11th edition of Topical Issues of Linguistics and Teaching Methods in Business and Professional Communication TILTM 2024 held at RUDN University which present a diverse collection of studies in applied linguistics and specialized language training. This book brings together research on a wide range of topics including innovative approaches to language teaching, virtual reality technologies, business English in the context of global transformations, and corpus based methods for generating foreign language learning materials. The book interests scholars and practitioners engaged in language globalization, business discourse analysis, professional communication, and the integration of technology in linguistics and education.

Advances in Spatio-Temporal Segmentation of Visual Data Vladimir Mashtalir, Igor Ruban, Vitaly Levashenko, 2019-12-16 This book proposes a number of promising models and methods for adaptive segmentation, swarm partition, permissible segmentation, and transform properties, as well as techniques for spatio-temporal video segmentation and interpretation. Online fuzzy clustering of data streams and fuzzy systems for information retrieval. The main focus is on the spatio-temporal segmentation of visual information. Sets of meaningful and manageable image or video parts defined by visual interest or attention to higher level semantic issues are often vital to the efficient and effective processing and interpretation of viewable information. Developing robust methods for spatial and temporal partition represents a key challenge in computer vision and computational intelligence as a whole. This book is intended for students and researchers in the fields of machine learning and artificial intelligence, especially those whose work involves image processing and recognition, video parsing, and content based image/video retrieval.
