Agonistics Thinking The World Politically:

Agonistics Chantal Mouffe, 2013-07-02 Political conflict in our society is inevitable and the results are often far from negative How then should we deal with the intractable differences arising from complex modern culture In Agonistics Mouffe develops her philosophy taking particular interest in international relations strategies for radical politics and the politics of artistic practices In a series of coruscating essays she engages with cosmopolitanism post operaism and theories of multiple modernities to argue in favor of a multipolar world with a real cultural and political pluralism How is Architecture Political? Joseph Bedford, 2024-03-07 Chantal Mouffe has transformed the contemporary understanding of politics through her re-reading of political theory inspired by anti-foundationalist philosophy based on Saussure's linguistics Freud's psychoanalysis and Derrida's deconstruction Her writings have challenged the centrist post-political ideology of the 1990s and presciently diagnosed the emergence of right-wing populism seen today with Trump and Brexit For Mouffe such populism is the result of the failed centrist conception of politics reduced to technical management She has called for a return to politics on the view that social antagonisms cannot be reconciled but must be channeled into an agonistic form of institutionally stabilized struggle This book brings Chantal Mouffe's agonistic model of politics into direct dialogue with architecture and inquiries into the role that architecture plays constructing the political order of society either by concealing or revealing its antagonisms and ideological conflicts In doing so it asks in what ways architecture operates politically whether institutionally in terms of its spaces and its part in forming cities or as an aesthetic object with mediatic agency Through this detailed exchange between Mouffe and four of the world's leading architectural thinkers Reinhold Martin Ines Weizman Pier Vittorio Aureli and Sarah Whiting a debate unfolds within the book that tests the implications of Mouffe's agonistic model of politics for architectural practice today Through this Bedford explores how architectural history architectural drawing the making of spectacular monuments the design and policies behind housing and the making of public and private space all potentially contribute to the formulation of the channeling of social conflict into an agonistic form

Art, Critical Pedagogy and Capitalism Paul Alexander Stewart, 2020-12-30 This book offers a re-examination of art production in terms that understand the process of learning as the production of art itself Drawing on the thought of Ranciere Freire Gramsci and Mouffe it provides an account of the politics of art production and a theoretical understanding of hegemonic power while developing a view of method in critical pedagogy founded on the process of making adversaries Through a re-evaluation of the relationships between process arts production and pedagogy within accelerated developments of neoliberalism the author uncovers ways of forming a more co-operative and less conflictual approach to democratic politics An investigation of ways in which art practice can be used to engage with critical pedagogy in relation to a commodity-driven neoliberal agenda Art Critical Pedagogy and Capitalism constitutes a radical rethinking of art making and an attempt to address the paradox between the proliferation of the commodity of learning and the perceived crisis of arts education As

such it will appeal to scholars of education pedagogy and the arts with interests in social and critical theory *Superfluous Women* Jessica Zychowicz,2020-09-10 *Superfluous Women* tells the unique story of a generation of artists feminists and queer activists who emerged in Ukraine after the collapse of the Soviet Union With a focus on new media Zychowicz demonstrates how contemporary artist collectives in Ukraine have contested Soviet and Western connotations of feminism to draw attention to a range of human rights issues with global impact In the book Zychowicz summarizes and engages with more recent critical scholarship on the role of digital media and virtual environments in concepts of the public sphere Mapping out several key changes in newly independent Ukraine she traces the discursive links between distinct eras marked by mass gatherings on Kyiv s main square in order to investigate the deeper shifts driving feminist protest and politics today

From Friend-Enemy to Agonistic Pluralism. Chantal Mouffe's way of dealing with Carl Schmitt David Schneider,2018-01-08 Seminar paper from the year 2017 in the subject Politics Political Theory and the History of Ideas Journal grade High Merit course The Challenge of Carl Schmitt language English abstract Carl Schmitt is not only known for his remarkable influence on 20th century legal and political theory but also for his close allegiance with Nazism Whereas some say that his Nazi experience can t be separated from his ideas it is even more surprising that radical democrat Chantal Mouffe comes up with a way of using Schmitt s ideas to rethink contemporary politics Her reflection on and modification of Schmitt s friend enemy distinction led her to a friend adversary distinction that underlies her notion of agonistic pluralism The aim of this essay is to outline in what way Mouffe s account of agonistic pluralism resembles Schmitt s friend enemy distinction First we have a look on Schmitt s friend enemy distinction Then we will focus on Chantal Mouffe s modification of Schmitt s distinction and mention besides widely discussed commonalities and differences between her and Schmitt s conception a difference that until now hasn t received much attention in the literature the different accounts of the preferred location of the friend s opponent In the last part of this essay a weakness that both conceptions share and that until now didn t receive the attention it deserves will be presented namely their failure to recognize that friend opponent distinctions are not necessarily tied to membership of a certain political entity In the last paragraph possible implications of this weakness on the relationship between Schmitt s and Mouffe s friend opponent distinctions and cosmopolitanism will be outlined *Pierre Rosanvallon's Political Thought* Oliver Flügel-Martinsen,Franziska Martinsen,Daniel Schulz,Stephen W. Sawyer,2019 The work of Pierre Rosanvallon has increasingly found itself at the center of debates in democratic and political theory This interdisciplinary volume the first comprehensive collection on his political thought in English seeks to lay the groundwork for the study of this eminent political thinker and historian *Monatshefte* ,2019 **Michigan Quarterly Review** ,2015

Winkler,Tom Clucas,2019 Cultures as well as individuals continually balance the demands of nostalgia and sustainability as they construct historical narratives of futures worth preserving The aim of this volume is to explore those narratives and the underlying assumptions which inform them

Drawing on a range of disciplines from the humanities and social sciences the chapters investigate cultural assumptions about which aspects of the past deserve to be remembered and which aspects of the present should be sustained for the future In the process they reveal how contemporary definitions of sustainability are informed by a nostalgic yearning for the past and how nostalgia is motivated by a reciprocal longing to sustain the past for the future Europe Faces Europe Johan Fornäs,2017 Europe Faces Europe examines Eastern European perspectives on European identity The contributors to this volume map narratives of Europe rooted in Eastern Europe examining their relationship to philosophy journalism social movements literary texts visual art and popular music Moving the debate and research on European identity beyond the geographical power center the essays explore how Europeanness is conceived of in the dynamic region of Eastern Europe Offering a fresh take on European identity Europe Faces Europe comes at an important time when Eastern Europe and European identity are in an important and vibrant phase of transition Design Issues ,2018 The first American academic journal to examine design history theory and criticism Design Issues provokes inquiry into the cultural and intellectual issues surrounding design Regular features include theoretical and critical articles by professional and scholarly contributors extensive book reviews illustrations and a section for reader response Special issues concentrate on particular themes such as artificial intelligence product seminars design in Asia and design education **Chantal Mouffe. Hatab,1995 To many a Nietzschean defense of democracy may seem oxymoronic but Hatab squarely confronts the staunchly antidemocratic tendencies in Nietzsche's writings and offers a surprisingly convincing critique of them based on other aspects of Nietzsche's thought All who are indebted to Nietzsche for
