Lay a solid foundation of algebra proficiency with over 155 hands on games and activities. To complement the natural process of learning each activity builds on the previous one from concrete to pictorial to abstract. Dr. Thompson's unique three step approach encourages students to first recognize patterns then use diagrams, tables and graphs to illustrate algebraic concepts and finally apply what they've learned through cooperative games, puzzles, problems and activities using a graphic calculator and computer. You'll find each activity has complete teacher directions, lists of materials needed and helpful examples for discussion, homework and quizzes. Most activities include time saving reproducible worksheets for use with individual students, small groups or the entire class. This ready to use resource contains materials sufficient for a two semester course in Algebra I and can be adapted for advanced students as well as students with dyslexia.
