Computational Science and Computational Intelligence Hamid R. Arabnia, Leonidas Deligiannidis, Farzan Shenavarmasouleh, Soheyla Amirian, Farid Ghareh Mohammadi, 2025-08-09 The CCIS book constitutes selected papers accepted in the Research Track on Education of the 11th International Conference on Computational Science and Computational Intelligence CSCI 2024 which took place in Las Vegas NV USA during December 11-13 2024. The 26 full papers included in this book were carefully reviewed and selected from a total of 155 submissions. They were organized in topical sections on subject specific education and curriculum design education and artificial intelligence teaching and learning strategies and related research studies.

Handbook of Research on Computational Science and Engineering: Theory and Practice Leng, J., Sharrock, Wes, 2011-10-31 By using computer simulations in research and development computational science and engineering CSE allows empirical inquiry where traditional experimentation and methods of inquiry are difficult inefficient or prohibitively expensive. The Handbook of Research on Computational Science and Engineering Theory and Practice is a reference for interested researchers and decision makers who want a timely introduction to the possibilities in CSE to advance their ongoing research and applications or to discover new resources and cutting edge developments. Rather than reporting results obtained using CSE models this comprehensive survey captures the architecture of the cross disciplinary field explores the long term implications of technology choices alerts readers to the hurdles facing CSE and identifies trends in future development.

Deep Learning with Python, Second Edition Francois Chollet, 2021-12-07 Unlock the groundbreaking advances of deep learning with this extensively revised edition of the bestselling original. Learn directly from the creator of Keras and master practical Python deep learning techniques that are easy to apply in the real world. In Deep Learning with Python Second Edition you will learn Deep learning from first principles Image classification image segmentation Timeseries forecasting Text classification and machine translation Text generation neural style transfer and image generation. Deep Learning with Python has taught thousands of readers how to put the full capabilities of deep learning into action. This extensively revised second edition introduces deep learning using Python and Keras and is loaded with insights for both novice and experienced ML practitioners. You will learn practical techniques that are easy to apply in the real world and important theory for perfecting neural networks. Purchase of the print book includes a free eBook in PDF Kindle and ePub formats from Manning Publications. About the technology Recent innovations in deep learning unlock exciting new software capabilities like automated language translation image recognition and more. Deep learning is becoming essential knowledge for every software developer and modern tools like Keras and TensorFlow put it within your reach even if you have no background in mathematics or data science. About the book Deep Learning with Python Second Edition introduces the field of deep learning using Python and the powerful Keras library. In this new edition Keras creator Francois Chollet offers insights for both novice and experienced machine learning practitioners.

As you move through this book you'll build your understanding through intuitive explanations, crisp illustrations, and clear examples. You'll pick up the skills to start developing deep learning applications. What's inside: Deep learning from first principles, Image classification and image segmentation, Time series forecasting, Text classification and machine translation, Text generation, neural style transfer, and image generation. About the reader: For readers with intermediate Python skills. No previous experience with Keras, TensorFlow, or machine learning is required. About the author: François Chollet is a software engineer at Google and creator of the Keras deep learning library.

Scientific Computing with Multicore and Accelerators Jakub Kurzak, David A. Bader, Jack Dongarra, 2010-12-07. The hybrid heterogeneous nature of future microprocessors and large high performance computing systems will result in a reliance on two major types of components: multicore manycore central processing units and special purpose hardware: massively parallel accelerators. While these technologies have numerous benefits, they also pose substantial performance challenges.

Accelerating Science and Engineering Discoveries Through Integrated Research Infrastructure for Experiment, Big Data, Modeling and Simulation Kothe Doug, Geist Al, Swaroop Pophale, Hong Liu, Suzanne Parete-Koon, 2023-01-17. This book constitutes the refereed proceedings of the 22nd Smoky Mountains Computational Sciences and Engineering Conference on Accelerating Science and Engineering Discoveries Through Integrated Research Infrastructure for Experiment, Big Data, Modeling and Simulation (SMC 2022) held virtually during August 23-25, 2022. The 24 full papers included in this book were carefully reviewed and selected from 74 submissions. They were organized in topical sections as follows: foundational methods enabling science in an integrated ecosystem; science and engineering applications requiring and motivating an integrated ecosystem; systems and software advances enabling an integrated science and engineering ecosystem; deploying advanced technologies for an integrated science and engineering ecosystem; and scientific data challenges.
