Artificial Intelligence in Recruiting. A Literature Review on Artificial Intelligence Technologies, Ethical Implications and the Resulting Chances and Risks Matthias Rudolph, 2021-01-07 Master's Thesis from the year 2020 in the subject Computer Sciences Artificial Intelligence grade 1.3 Friedrich Alexander University Erlangen Nuremberg Wirtschaftsinformatik language English abstract

The thesis aims to analyze this field of tension between the benefits and risks caused by the introduction of AI into recruiting based on a systematic analysis of academic publications To the knowledge of the author neither a literature review on ethical challenges of AI based recruiting tools nor an overview addressing application fields and the resulting ethical risks has been published so far Consequently this thesis aims to close this research gap by disclosing how AI technologies affect the recruiting process and how ethical challenges arising from the implementation of AI based tools are addressed in the same publications Consequently research question RQ one RQ1 and RQ two RQ2 can be derived Which AI technologies are applied in the field of recruiting and how do they influence the recruiting process Which major ethical challenges arise from the introduction of AI into recruiting and how are these challenges addressed by the proposed AI based tools Addressing these two RQs the remainder of this thesis is structured as follows Chapter 2 classifies recruiting and its subprocesses as a part of Human Resources HR establishes a common understanding of AI and machine learning ML algorithms relevant in AI based recruiting tools and derives major ethical challenges with a focus on the ethical principles fairness and transparency In chapter 3 the methodical approach used for identifying and selecting relevant literature is described Chapter 4 answers both RQs based on the AI based recruiting tools included in the literature set In turn the first part of the analysis focuses on analyzing how the needs raised through traditional recruiting means are addressed by AI based recruiting tools also touching

base on the underlying technologies The second part addresses if and where applicable how these publications incorporate fairness and transparency Subsequently chapter 5 discusses the main findings of the analysis of the literature set and provides implications for theory and practice followed by a brief conclusion and the outlining of limitations and future research fields in chapter 6

established event on the academic research calendar and now in its 23rd year and remains an opportunity for participants to share ideas and meet. The aims and scope of this conference is to bring together researchers from a range of disciplines and sectors to share expertise and novel approaches in business and management research methods. ECRM is interested in contributions on the subject of research methods used in business and management research. The papers tend to either focus directly on creating and implementing innovative methodologies or research papers which highlight an interesting use of methodologies in their study. The opening keynote presentation is given by Marta Agostinho, Executive Director of EU LIFE, with the title 'Excellent Scientific Research: What Does it Mean and Why Should we Care About it'. On the second day, Professor Susanne Tietze from The University of Sheffield Hallam, UK, will give a talk on the subject 'Cross Language Research Methods: Translation and Linguistic Reflexivity'. With an initial submission of 90 abstracts after the double blind peer review process, there are 30 Academic research papers, 1 PhD research paper, 1 Masters Research paper, and 1 work in progress paper published in these Conference Proceedings. These papers represent research from India, Australia, Brazil, Canada, China, Czech Republic, Estonia, Germany, Ireland, Italy, Latvia, Morocco, Norway, Oman, Poland, Portugal, Slovakia, South Africa, Sweden, UK, and the USA.

"Looks Good to Me" Adrienne Braganza, 2025-01-07. Deliver code reviews that consistently build up your team and improve your applications. Looks Good to Me offers a unique approach to delivering meaningful code reviews that goes beyond superficial checklists and tense critical conversations. Instead, you'll learn how to improve both your applications and your team dynamics. Looks Good to Me teaches you how to: Understand a code review's benefits, proactively prevent loopholes and bottlenecks, Co-create an objective code review system, Clarify responsibilities (author, reviewer, team lead, manager, and the team itself), Establish manageable guidelines and protocols, Align with your team and explicitly document the policies they will follow, Automate code quality with linting, formatting, static analysis, and automated testing, Compose effective comments for any situation, Consider combining code reviews with pair programming or mob programming, AI for code reviews. Inside Looks Good to Me, you'll find comprehensive coverage of every part of the code review process, from choosing a system to keeping reviews manageable for everyone involved. With this mix of tools, processes, common sense, and compassion, you'll run a highly effective review process from first commit to final deployment.

Foreword by Scott Hanselman: About the technology. Transform code reviews into the positive, productive experiences they're meant to be. Whether it's your code under the microscope or you're the one giving the feedback, this sensible guide will help you avoid the tense debates, fruitless nitpicking, and unnecessary bottlenecks you've come to expect from code reviews. About the book. Looks Good to Me teaches the considerate, common sense approach to code reviews pioneered by author Adrienne Braganza. You'll learn how to create a cohesive team environment, align review goals and expectations clearly, and be prepared for any changes or obstacles you may face. Along the way, you'll master practices that adapt to how your team does things, with multiple options and solutions, relatable scenarios, and personal tidbits. You'll soon be running highly effective reviews that make your code

and your team stronger What's inside Why we do code reviews Automate processes for code quality Write effective comments About the reader For any team member from developer to lead About the author Adrienne Braganza is an engineer speaker instructor and author of the bestselling book Coding for Kids Python Table of Contents Part 1 1 The significance of code reviews 2 Dissecting the code review 3 Building your team's first code review process Part 2 4 The Team Working Agreement 5 The advantages of automation 6 Composing effective code review comments Part 3 7 How code reviews can suck 8 Decreasing code review delays 9 Eliminating process loopholes 10 The Emergency Playbook Part 4 11 Code reviews and pair programming 12 Code reviews and mob programming 13 Code reviews and AI A Team Working Agreement starter template B Emergency Playbook starter template C PR templates D List of resources Graduate Medical Education in Pediatrics Heather McPhillips, Patricia Poitevien, Joanna Lewis, Rebecca Blankenburg, 2026-03-22 This book is a wide ranging and comprehensive overview of pediatric residency education including specific administrative and educational best practices As programs navigate new accreditation rules evolving recruitment practices including signaling and changes in assessment and program evaluation pediatric residency leaders are confronting a period of extraordinary change This book brings together national leaders in medical education to offer essential guidance and actionable solutions that help programs adapt innovate and excel The volume provides a thorough guide to designing implementing and advancing pediatric residency programs Covering foundational structures program design recruitment curriculum development assessment and resident support it equips educators with practical strategies to develop a high performance program The final sections explore faculty development and future innovations making this a vital resource for shaping the next generation of pediatric residency programs Graduate Medical Education in Pediatrics From Basic Processes to True Innovation is an invaluable resource for pediatric residency program directors faculty clinic and hospital managers residency coordinators hospital leadership department and medical school leadership and resident physicians who are interested in pursuing a career in pediatric education In addition much of this book will be of interest to pediatric fellowship directors and combined training directors such as med peds program directors **Science and Technology Annual Reference Review**, 1990 **American Monthly Review of Reviews** Albert Shaw, 1929 *Pictorial Review*, 1923 Includes music *The Impact of Artificial Intelligence on Workforce Management within the Banking and Finance Industry* Sofia Papadopoulou, 2021-05-18 Master's Thesis from the year 2020 in the subject Business economics Banking Stock Exchanges Insurance Accounting grade 1 6 University of applied sciences Frankfurt a M language English abstract The purpose and objective of this thesis is to examine the degree of impact WFM is facing due to implementation of AI based tools within the banking and finance industry To do this the author will select and classify under the chapter Literature Review how in which departments and to what degree banks and other financial institutions have implemented AI tools within their organization Secondly the author will conduct interviews with executive leaders as well as with AI researchers and experts and analyze

the data received For this study the author focuses on AI s impact on WFM within the banking and finance industry The purpose of the following questions is to refine the present knowledge gap within the banking and finance industry regarding the WFM impact of AI The author will emphasize via a literature review and interviews exactly how AI based technology tools have been implemented in the banking and finance industry To do so three research questions have been chosen and will be further analyzed throughout this study paper The first question focuses on WFM and HR teams It predicts how many people and what kind of qualifications will be deployed As well as where and when they will be deployed There are many consequences of banks and other financial institutions implementing more AI technology In his book *Competing in the Age of AI* Iansiti and Lakhani mention that it is critical for leaders to understand the choice of model along with navigating the ethics of digital scale The author emphasizes that leaders must be able to build a strong organization of safety security and sustainability Firms spend billions of dollars on new AI related technologies and innovations Despite this banks and other financial institutions face three main issues The first challenge is an outdated operating model The second challenge is the lack of a fitting talent strategy Both challenges are interconnected to each other Likewise as a third challenge Workforce Management WFM the core process that boosts performance levels and competency for an organization has been reformed and disrupted by the introduction of AI **The Artificial Intelligence Report** ,1984 Manufacturing Technology Review ,1986

Writing with AI in EFL Classrooms: Students' Perspectives and Pedagogical Implications Melanie Razonable,2026-03-18 Essay from the year 2026 in the subject Didactics for the subject English Miscellaneous grade 11 language English abstract The rapid development of Artificial Intelligence AI has begun to reshape educational practices across disciplines including language learning In English as a Foreign Language EFL contexts AI assisted writing tools are increasingly used to support learners during different stages of the writing process These tools provide functions such as idea generation vocabulary suggestions grammar feedback and text modeling which may help students overcome common difficulties in second language writing This paper explores students perspectives on the use of AI assisted writing tools in EFL classrooms and discusses the pedagogical implications of integrating these technologies into writing instruction Drawing on existing literature and theoretical frameworks such as the Technology Acceptance Model and the Presage Process Product model the discussion examines how students perceive the usefulness and accessibility of AI tools and how these perceptions influence their engagement with writing tasks The analysis suggests that EFL learners generally express positive attitudes toward AI writing tools reporting benefits such as reduced writing anxiety improved idea development and increased exposure to vocabulary and grammatical structures However the paper also highlights potential concerns including overreliance on AI inaccuracies in AI generated language and possible limitations for creativity and critical thinking when AI is used without guidance The paper argues that the effectiveness of AI in writing instruction depends not primarily on the technology itself but on how it is integrated into pedagogical practice Thoughtful instructional design and active teacher

guidance are essential to ensure that AI functions as a supportive learning tool rather than a substitute for meaningful language learning The study concludes by emphasizing the importance of responsible and reflective integration of AI technologies to support sustainable development in EFL writing education *The American Monthly Review of Reviews* ,1900 **Computer Book Review** ,1986 **Annual Review of Information Science and Technology** Carlos A. Cuadra,1987 *The American Monthly Review of Reviews* Albert Shaw,1900
