Smuggling Writing Karen D. Wood, D. Bruce Taylor, Katie Stover Kelly, 2015-10-30 Can you sneak more writing into your already jammed curriculum Smuggling Writing shows how to integrate writing seamlessly into your lesson plans with 32 written response activities that help students process information and ideas in short powerful sessions The authors invigorate time tested tools and organize them into sections on Vocabulary and Concept Development Comprehension Discussion and Research Inquiry Each strategy Takes students through before during and after reading learning Provides engaging digital applications Includes sample lessons Details connections to Common Core State Standards Smuggling Writing shows how big gains will come from writing small day by day

Collection Management in the Cloud Kayla Kipps, Allison Kaiser Jones, 2022-03-11 As remote work has become routine cloud based technology tools have become increasingly necessary to communicate with other library staff and with faculty and staff to continue providing seamless and uninterrupted access to library resources and collections for our campus community Cloud based technology tools such as Google Forms and Google Sheets are used to gather faculty requests for collection development tools such as Tableau are used to illustrate material budget balances and platforms such as Trello have been adopted to track subscription renewal cycles and manage other projects This guide discusses the benefits of using these powerful cloud based and little to no additional cost technology tools through the lens of a particular area in librarianship such as documentation data and project management communication data storage and data visualization While the real world examples provided throughout focus on technical services staff operations specifically acquisitions and electronic collection management each tool s features and use cases are transferable among all areas of librarianship This guide provides insights into how collaborative dynamic and accessible these cloud based solutions are for a technologically shifting workplace as well as considers the challenges to adopting cloud based solutions such as administrative buy in aversion to change and steeper learning curves as well Readers will gain practical experiential examples that have been instrumental in creating efficiencies in collection management workflows for technical services staff The use cases illustrated exemplify enhancements that librarians can incorporate into their own collection management practices to further engage with their colleagues their patrons and their larger communities more effectively and efficiently

The Case Writing Workbook Gina Vega, 2017-04-27 This book offers a modular set of chapters that focus specifically on the challenges related to case writing Exercises worksheets and training activities help guide readers sequentially through the entire process of writing both a case and an instructor s manual teaching note Designed as an individualized workshop to assist case authors to structure their writing this book combines the easy to understand student focused language of the first edition with new material covering the latest developments and challenges in the world of case writing These include A section on writing cases in condensed time frames A new module on writing short cases in various formats A new module on turning research papers into teaching tools A section about growing communities of practice in a

university An expansion of the student case writing module to include a section on case writing for graduate students Twelve new worksheets A complete index to facilitate use of the book Finishing all the book s assignments will result in a complete case and instructor s manual that can be tested in the classroom and submitted to a conference or journal The Case Writing Workbook is a must for the shelf of any academic or student conducting qualitative research and looking to enhance their skill set

Intelligent Systems and Applications Kohei Arai,2021-08-06 This book presents Proceedings of the 2021 Intelligent Systems Conference which is a remarkable collection of chapters covering a wider range of topics in areas of intelligent systems and artificial intelligence and their applications to the real world The conference attracted a total of 496 submissions from many academic pioneering researchers scientists industrial engineers and students from all around the world These submissions underwent a double blind peer review process Of the total submissions 180 submissions have been selected to be included in these proceedings As we witness exponential growth of computational intelligence in several directions and use of intelligent systems in everyday applications this book is an ideal resource for reporting latest innovations and future of AI The chapters include theory and application on all aspects of artificial intelligence from classical to intelligent scope We hope that readers find the book interesting and valuable it provides the state of the art intelligent methods and techniques for solving real world problems along with a vision of the future research
