The 2010s were a decade of foodbanks riots and the rebirth of political alternatives Looking to escape a future of rising debt falling living standards and climate meltdown a set of movements were born across the globe led by students workers and the tent cities of Occupy A new wave of optimistic radical young people were building mass movements outside the political bubble rejecting the neo liberal consensus and the enrichment of the 1% and laying the foundations of a new left Eight years later Bernie Sanders was favorite to clinch the Democratic Party nomination and Jeremy Corbyn and Momentum had taken over the Labour Party in Britain promising a new kind of politics But as the new left poured into Labour it was overwhelmed by older institutional forces on both left and right Four years after Corbyn became leader after bitter infighting and a Brexit fuelled strategic crisis it all fell apart This is the inside story of how the left came back to life in the 2010s from a man who found himself at the centre of events featuring unparalleled access and a range of interviews with key left wing figures Influential journalist and activist Michael Chessum explains how this movement was built why it failed and what it needs to do now

The Powerful Norm for Climate Change Action Laura von Allwörden,2026-02-19 Available open access digitally under CC BY NC ND licence How do international climate and energy organizations survive and thrive despite powerful contestation This analysis reveals how the United Nations Framework Convention on Climate Change UNFCCC and the International Energy Agency IEA maintain legitimacy when key players like the United States withdraw from global agreements Using qualitative research including interviews and participant observation this book unveils the norm for climate change action a powerful principle that transforms contestation into reinforcement of international climate governance In doing so it demonstrates how opposition doesn t destroy these organizations but paradoxically strengthens their role in global climate action
