Neoliberal Feminism and the Discourse of Self-Improvement Giuliana Ferri, 2026-04-30 Neoliberal Feminism and the Discourse of Self Improvement utilises feminist critical discourse analysis to examine the language and narratives within selfhelp literature targeted at women Giuliana Ferri critically explores the discourse of self improvement focusing on how neoliberal values of empowerment and individual fulfilment have been co opted by elite feminism as a technology of the self She unpacks how this discourse constructs an idealised image of the empowered woman one who is portrayed as capable of overcoming patriarchy through the affirmation of innate strength and resilience Drawing on Marxist feminism and feminist social reproduction theory the book highlights how neoliberal feminism markets women as entrepreneurs badass feminists and successful working mothers all while obscuring the realities of increasing work precarization and flexibilisation in post industrial societies Through its feminist critical discourse analysis the book reveals how these seemingly empowering narratives shift the responsibility for systemic

change onto individuals rather than positioning feminism as a collective anti capitalist movement for liberation By integrating applied linguistics with Marxist feminism and social reproduction theory this text provides a unique interdisciplinary perspective making it a key reading for scholars and students of language gender and economic systems **Righteousness, Volume 2** Jeffrey J. Niehaus,2023-10-19 The second volume of this three volume work exegetes and comments on every occurrence of the Hebrew terms for righteousness in the Old Testament It begins with a discussion of apperception and deductive method and concludes with an afterword on righteousness and ontology The ontological argument affirms that God's aseity is the foundation of righteousness in the Bible and thus of all true righteousness Righteousness is being true to God and God is always true to himself including in his self existence Other terms in the righteous word group such as righteous and justify are considered along with the important word pair righteousness and justice in semantic domain studies in the first three chapters Semantic domain studies show that terms like upright blameless and good are qualifiers of righteousness Whatever the flavor or nuance of the terms for righteousness may be in different OT contexts however study shows that the underlying sense of righteousness is conformity to God's Being and doing and the same is true of the righteousness of God
