Science Experiments Macbook Top:

The Journal of Agricultural Science, 1912 *Billy Apple*®: *Life/Work* Christina Barton, 2020-11-12 Billy Apple born Barrie Bates in Auckland 1935 is New Zealand's most internationally significant living artist and a pioneer of pop and conceptual art. At the Royal College of Art in London from 1959-62 Apple studied with key contemporaries notably David Hockney and staged one of the earliest solo exhibitions in the new pop art after changing his name in 1962 to Billy Apple. In 1964 he moved to New York. There he worked as an art director, developed his art, exhibited extensively with leading artists notably in the 1964 American Supermarket exhibition with Andy Warhol, Jasper Johns and others and established one of the first alternative art spaces Apple which hosted some of the new ephemeral activities that enlivened the New York scene in the 1970s. He returned to live in New Zealand in 1990 where he continues to produce his particular brand of conceptual art. Apple's work is held in permanent collections from the Tate to the Philadelphia Museum of Art. This is the first substantial book on Billy Apple's career. Based on over a decade of research all over the world and unprecedented access to Apple's own archive *Billy Apple Life Work* chronicles an extraordinary sixty year career and the art scenes that have sustained it in London, New York and Auckland. The book includes more than 200 illustrations in colour with a generous selection of reproductions of Apple's works as well as other illustrative material.
