Date: 6/22/23

Prepared by: ASA Engineering Group, LLC, 13017 Wisteria Dr. #410, Germantown MD 20874, Office: 301-916-6030

Property Address: 2023 Sample Street, Sample, Maryland

Attachments: Advanced Structural Assessment Data Sheet

*The following structural opinion is provided in accordance with generally accepted engineering practices. The opinion is based on a review of the attached Advanced Structural Assessment Data Sheet, associated photos/video, and if applicable, discussions with the ASA certified inspector. Any repair recommendations, if provided, are for reference only and shall not be used as a construction document. Should new information about the structural condition of the subject property become available, we reserve the right to supplement or amend our findings. All terms and conditions set forth in the agreement are incorporated herein. No warranty, express or implied is made.*

*Should structural repairs be deemed necessary, repairs should be performed by licensed and experienced contractors and performed in accordance with applicable building codes, standards, and permit requirements. Typically, when structural repairs are needed, oversight is provided by a licensed professional engineer.*

### Structural Findings:

Based on a review of the provided data, conditions indicate a moderate structural defect to the floor framing at the kitchen. The amount of movement (about 1 1/2" floor differential) is of moderate concern. Other areas of the structure appear to be sound.

### Structural Recommendations:

We recommend monitoring floor conditions for changes such as increased floor movement or cracks to finishes in the area. If conditions change, further investigation is recommended. Although there is no indication that structural repairs are warranted at the present time, a possible future repair scenario would be reinforcing the joists at the area of floor settlement, such as by sistering of joists or similar.

### Possible Repair Scenarios:

Reinforce floor joists at kitchen.

Kind Regards,
