Life Goes Both Ways Willy Vil, 2024-08-05 The story Life Goes Both Ways is a true story that is about a twenty-year-old who just finished high school from abroad and moved to the USA without his mom dad and friends Due to the speech impediment life was too

difficult for him. When he left, he made lots of commitments to his family. In the start, he felt that everything was going to be easy to the point where he was going to maintain a reasonable life right away. Shortly, he discovered that things didn't work like that in the United States of America. Some types of items ought to be done sooner before you could get yourself situated. At foremost, he was living with his brother, J, but things didn't work out nicely between the two of them. In a brief time in the country, he was out of his brother's home with no place to stay. Luckily, an elder companion of his promised him to stay in his place until he gets his life in order. Therefore, he jumped back and forth from position to position until he chose to go to school to construct some modifications in his life. He attempted to go to school, but it didn't work out for him. It wasn't until he met a professor who used to teach French at a university in Paris, who showed him some methods about how to write essays in the English language. Ever since, he observed he was doing very well in school. He managed to get his associate's in business entrepreneurship, but then quit going to college. After a few years, he met his wife, and they had three boys together and bought a house. Due to union obligations and taking care of the children, he couldn't afford to go back to school. His life was focused on the children's education and work. After the children graduated from college and had successful careers, he decided to go back to school to finish what he started. After fifty-plus years during COVID time, he went back to school and managed to graduate with honors. He went to Purdue University Global, where he got himself a degree in business administration. He was an exceptional student, too. Information in the book showcased that life went both ways. At certain times in life, there would be no way out; other times, things would be floating smoothly. At first, the future didn't appear very good for the young man in this country. With hard work, commitment, and the support of a few good people, he managed to adjust certain things and, at last, create an exorbitant life for himself. Things were challenging at the beginning, but he turned a bunch of negative stuff into positive ones. Nevertheless, I think that we need good tutors to teach us about the facts of life. In that case, our parents are the ideal ones. After all, I believe very strongly that we should listen to our mom and dad more often because their words contain valuable lessons to teach us.
