Garcia, 2009-02 Between fifty to sixty people attended the party This one is as good or better than that one Employees who service this community are highly trained Each of the above sentences contains an error Do you know how to repair the damage Are you interested in writing well Can you use some help in this endeavor Do you want to show that you know the fundamentals of good writing Do you want your reader to be well impressed Are you a student with a writing assignment Do you want an A grade on your essay Are you applying for admission to a university Do you have to write a letter of introduction to a prospective employer Do you anticipate giving a speech to an educated audience Do you have to write a long term paper or a Ph D thesis If you answered Yes to any of these questions then you need this book *The Teaching Files: Brain and Spine Imaging E-Book*

Girish M. Fatterpekar, Thomas P. Naidich, Peter M. Som, 2011-11-28 Practical and clinically focused Brain and Spine Imaging a title in the Teaching Files Series provides you with over 300 interesting and well presented cases to help you better diagnose any disease of the brain and spine Expert in the field Dr Girish Fatterpekar MD uses a logical organization throughout making referencing difficult diagnoses easier than ever before Detailed discussions of today's modalities and technologies keep you up to date and challenging diagnostic questions probe your knowledge of the material This unique case based resource offers you an ideal way to sharpen your diagnostic skills and study for board exams Get expert practical guidance from over 300 cases and brief but thorough descriptions of findings that help you make review easier than ever before Stay current with the most up to date radiologic modalities and technologies Provides brief but thorough descriptions of findings putting the information you need at your fingertips Expand your knowledge with references to the most important sources on specific topics of interest Find key information quickly and easily thanks to consistently formatted chapters that include Demographics Clinical History Findings Discussion Characteristic Clinical Features Radiologic Findings Primary Differential Diagnosis and Suggested Readings See how to resolve challenging diagnostic questions by reviewing discussions of similar cases

Common Neuro-Ophthalmic Pitfalls Valerie A. Purvin, Aki Kawasaki, 2009-01-22 Using real life cases describing patients with neuro ophthalmic disorders this book is a case based teaching tool that bridges the gap between textbook information and everyday clinical practice Each case illustrates a particular area of frequent diagnostic confusion and highlights the specific clinical features that should point to the correct diagnosis Focusing on errors in this way serves as motivation to the clinician to master the material so that pitfalls can be avoided The level of the case discussions assumes that the reader has some familiarity with basic neuroanatomy physiology and disease process but each case discussion furnishes a brief review of such information always with an emphasis on those features that are clinically relevant The case histories are succinct and amply illustrated including motility and fundus photographs visual fields and radiographic studies The narrative is moved along with questions to the reader making it easy to follow the logic of the cases

**Renewable Energy for Smart and Sustainable Cities** Mustapha Hatti, 2018-11-23 This book features cutting edge research presented at the second international conference on Artificial Intelligence in Renewable Energetic Systems IC AIRES2018 held on 24-26 November 2018 at the High School of Commerce ESC Kol a in Tipaza Algeria Today the fundamental challenge of integrating renewable energies into the design of smart cities is more relevant than ever While based on the advent of big data and the use of information and communication technologies smart cities must now respond to cross cutting issues involving urban development energy and environmental constraints further these cities must also explore how they can integrate more sustainable energies Sustainable energies are a major determinant of smart cities longevity From an environmental and technological standpoint these energies offer an optimal power supply to the electric network while creating significantly less pollution This requires flexibility i e the availability of supply and demand The end goal of any smart city is to improve the

quality of life for all citizens both in the city and in the countryside in a way that is sustainable and respectful of the environment This book encourages the reader to engage in the preservation of our environment every moment every day so as to help build a clean and healthy future and to think of the future generations who will one day inherit our planet Further it equips those whose work involves energy systems and those engaged in modelling artificial intelligence to combine their expertise for the benefit of the scientific community and humanity as a whole
