Chemistry uses a mastery learning method In this method students build comprehension by adding new concepts while  
reviewing and rehearsing key material throughout the year This method is implemented in carefully crafted exercises quizzes  
and the textbook narrative and it facilitates learning mastery and retention Students appreciate the smaller profile and  
lighter weight of our books This is possible because of aspects of our Textbook Philosophy When mastery is the goal you must  
cull down the material to an amount that can reasonably be mastered in one year Related subjects are integrated into the  
narrative The history of modern chemistry mathematics and technical communication is emphasized throughout Integration  
protects a course from seeming compartmentalized from other subjects That s certainly not how the real world is Real  
chemists use math and writing skills every day Their knowledge about how the scientific enterprise works is greatly  
enhanced by their knowledge of great scientists who came before Our approach to implementing a Kingdom Perspective does  
not entail unnaturally inserting Bible verses or devotional insets A better approach for Christians is to do science from the  
faith informed perspective of disciples of Christ studying God s created order This is apparent in General Chemistry from the  
observations about order in the universe in how nature submits to scientific study and modeling and in the fitness of creation  
as a habitat for humanity and animal life      General Chemistry Darrell D. Ebbing,1999-01-01
