An Immense New Power to Heal Lee Gutkind, Pagan Kennedy, 2012-03-23 Is personalized medicine what some scientists call genetic medicine a pipe dream or a panacea Francis Collins current director of the National Institutes of Health and director of the Human Genome Project considers this new era the greatest revolution since Leonardo while Nobel Laureate Leland Hartwell compares personalized medicine to a train that has not yet left the station a very slow train with a very long way to go before we arrive at our destination There is no denying that new technology which has triggered an explosion of scientific information is ushering in a revolution in medicine for specialists general practitioners and the public Anyone can spit in a cup and for a small fee learn about his or her individual genetic make up But how useful is this information really to us or to our doctors What's more how much do we truly want to know and have others know about our possible destiny There is more than we can imagine at stake In *An Immense New Power to Heal* authors Lee Gutkind and Pagan Kennedy delve into the personal side of personalized medicine and offer the physician's perspective and the patient's experience through intimate narratives and case studies They also offer an intriguing background of the personalized medicine movement including the fascinating personalities of the key scientists involved as well as a glimpse into the in fighting that accompanies any race for a scientific breakthrough The result is a highly engaging lively and provocative discussion about this revolution in health care and most importantly what it really means for patients now and in the future

Technology for Smart Futures Mohammad Dastbaz, Hamid Arabnia, Babak Akhgar, 2017-09-05 This book explores the nexus of Sustainability and Information Communication Technologies that are rapidly changing the way we live learn and do business The monumental amount of energy required to power the Zetta byte of data traveling across the globe's billions of computers and mobile phones daily cannot be overstated This ground breaking reference examines the possibility that our evolving technologies may enable us to mitigate our global energy crisis rather than adding to it By connecting concepts and trends such as smart homes big data and the internet of things with their applications to sustainability the authors suggest that emerging and ubiquitous technologies embedded in our daily lives may rightfully be considered as enabling solutions for our future sustainable development

Augmented Reality Law, Privacy, and Ethics Brian Wassom, 2014-12-09 Augmented Reality AR is the blending of digital information in a real world environment A common example can be seen during any televised football game in which information about the game is digitally overlaid on the field as the players move and position themselves Another application is Google Glass which enables users to see AR graphics and information about their location and surroundings on the lenses of their digital eyewear changing in real time as they move about Augmented Reality Law Privacy and Ethics is the first book to examine the social legal and ethical issues surrounding AR technology Digital eyewear products have very recently thrust this rapidly expanding field into the mainstream but the technology is so much more than those devices Industry analysts have dubbed AR the eighth mass medium of communications Science fiction movies have

shown us the promise of this technology for decades and now our capabilities are finally catching up to that vision Augmented Reality will influence society as fundamentally as the Internet itself has done and such a powerful medium cannot help but radically affect the laws and norms that govern society No author is as uniquely qualified to provide a big picture forecast and guidebook for these developments as Brian Wassom A practicing attorney he has been writing on AR law since 2007 and has established himself as the world s foremost thought leader on the intersection of law ethics privacy and AR Augmented Reality professionals around the world follow his Augmented Legality blog This book collects and expands upon the best ideas expressed in that blog and sets them in the context of a big picture forecast of how AR is shaping all aspects of society Augmented reality thought leader Brian Wassom provides you with insight into how AR is changing our world socially ethically and legally Includes current examples case studies and legal cases from the frontiers of AR technology Learn how AR is changing our world in the areas of civil rights privacy litigation courtroom procedure addition pornography criminal activity patent copyright and free speech An invaluable reference guide to the impacts of this cutting edge technology for anyone who is developing apps for it using it or affected by it in daily life **Hacking Exposed Wireless, Third Edition**
