## Libro Di Scienze Explorer 2:

**Facing Each Other (2 Volumes)** Anthony Pagden, 2017-09-08 The perception of Europeans of the world and of the peoples beyond Europe has become in recent years the subject of intense scholarly interest and heated debate both in and outside the academy So too has the concern with how it was that those peoples who were variously discovered and then as often as not colonised understood the strangers in their midst This volume attempts to cover both these topics as well as to provide a number of crucial articles on the difficulties faced by modern historians in understanding the complex relationship between them and us Inevitably such relationships not only changed over time they also varied greatly from culture to culture The articles therefore cover most of the areas with which the European world came into contact from the earliest Portuguese incursions into Africa in the mid fifteenth century until the explorations of Cook and Bougainville in the Pacific in the late eighteenth It ranges too from Brazil to Russia from Tahiti to China *Memorie della Reale accademia delle scienze di Torino* ,1916 **La riforma sociale rassegna di scienze sociali e politiche** ,1896 Medieval Ethnographies Joan-Pau Rubies, 2017-05-15 From the twelfth century a growing sense of cultural confidence in the Latin West at the same time that the central lands of Islam suffered from numerous waves of conquest and devastation was accompanied by the increasing importance of the genre of empirical ethnographies From a global perspective what is most distinctive of Europe is the genre's long term impact rather than its mere empirical potential or its ethnocentrism all of which can also be found in China and in Islamic cultures Hence what needs emphasizing is the multiplication of original writings over time their increased circulation and their authoritative status as a scientific discourse The empirical bent was more characteristic of travel accounts than of theological disputations in fact the less elaborate the theological discourse the stronger the ethnographic impulse although many travel writers were clerics This anthology of classic articles in the history of medieval ethnographies illustrates this theme with reference to the contexts and genres of travel writing the transformation of enduring myths ranging from oriental marvels to the virtuous ascetics of India or Prester John the practical expression of particular encounters from the Mongols to the Atlantic and the various attempts to explain cultural differences either through the concept of barbarism or through geography and climate Natural Things in Early Modern Worlds Mackenzie Cooley, Anna Toledano, Duygu Yildirim, 2023-05-09 The essays and original visualizations collected in Natural Things in Early Modern Worlds explore the relationships among natural things ranging from pollen in a gust of wind to a carnivorous pitcher plant to a shell like skinned armadillo and the humans enthralled with them Episodes from 1500 to the early 1900s reveal connected histories across early modern worlds as natural things traveled across the Indian Ocean the Ottoman Empire Pacific islands Southeast Asia the Spanish Empire and Western Europe In distant worlds that were constantly changing with expanding networks of trade colonial aspirations and the rise of empiricism natural things obtained new meanings and became alienated from their origins Tracing the processes of their displacement each chapter starts with a piece of original

artwork that relies on digital collage to pull image sources out of place and to represent meanings that natural things lost and remade Accessible and elegant Natural Things is the first study of its kind to combine original visualizations with the history of science Museum goes scholars scientists and students will find new histories of nature and collecting within Its playful visuality will capture the imagination of non academic and academic readers alike while reminding us of the alienating capacity of the modern life sciences Bibliografia nazionale italiana ,2000 **Atti della III conferenza internazionale di psicotecnica applicata all'orientamento professionale, Milano, 2-3-4 ottobre 1922** ,1923
