Brand, 2026-01-20 The first in depth exploration of maintenance and a powerful argument for its civilizational importance  
from the author of How Buildings Learn and creator of the Whole Earth Catalog Maintenance is what keeps everything going  
It s what keeps life going Yet it s also easy to shirk or defer until the thing breaks the system falters and everything stops The  
apparent paradox is profound Maintenance is absolutely necessary and maintenance is optional The first in a multi volume  
work Maintenance Of Everything Part One offers a comprehensive overview of the civilizational importance of maintenance  
The book begins with a dramatic contest of maintenance styles under life critical conditions the Golden Globe around the  
world solo sailboat race of 1968 It goes on to explore the insights that can be gleaned from vehicle maintenance from the  
zeal of motorcycle maintainers to the maintenance philosophies that fought for dominance of the auto industry to the state of  
electric vehicle manufacturing today with absorbing detours into the evolution of precision in manufacturing the enduring  
importance of manuals sustainment in the military and the never ending battle against corrosion Maintenance Of Everything  
is a wide ranging and provocative call to expand what we mean by maintenance not just the tiresome preventative tasks but  
the whole grand process of keeping a thing going It invites us to understand not only the profound impact maintenance has  
on our daily lives but also why taking responsibility for maintaining something whether a motorcycle a monument or our very  
planet can be a radical act No one else but Stewart Brand is talking about the art and science of maintenance and how to do  
it well This will be an instant classic Kevin Kelly founding executive editor of Wired A deliciously good book Matt Ridley

at the front desk of a repair shop at some point staring at an invoice gritting our teeth and nursing our injured wallets All  
vehicles will inevitably need maintenance and we pay a premium in labor fees every time we take them in but unlike an  
automobile which has its electrical components hermetically sealed within its bodywork the electrical components on a

rain sand salt dust and ultraviolet rays virtually everyone who owns a motorcycle will eventually have to deal with electrical
