Advanced Randomized Neural Networks For Pattern Analysis Chenglong Zhang, Shifei Ding, Yang Wang, David Zhang, 2025-09-23 This book is the culmination of our research in the recent decade on randomized neural networks with data dependent supervision mechanisms Traditional randomized neural networks mainly focused on constructing various deep neural networks with data independent random weights ignoring the impact of the number of nodes and scope of parameters on the universal approximation property UAP of randomized neural networks Comprising of 15 chapters Advanced Randomized Neural Networks for Pattern Analysis introduces systematic solutions for advanced data dependent stochastic configuration networks namely algorithms that assign random parameters and construct network structures incrementally The book is segmented into three major sections neural networks optimization robust data analysis and deep fusion learning that feature the successful performance of advanced randomized neural networks in various pattern analysis problems We anticipate that both researchers and engineers in the field of artificial neural networks particularly pattern recognition and medical diagnosis will find this book and the associated algorithms useful and we hope that anyone with an interest in the related research field will find the book enjoyable and informative **Educart NEET 22 Years Solved Papers 2003-2024 (Physics, Chemistry and Biology) for 2025 Exam (with NCERT Related theory & Mnemonics introduced)** Educart, 2024-06-17 What You Get Mnemonics Caution Points Educart NEET 22 Years Solved Papers 2003 2024 Physics Chemistry and Biology for 2025 Exam with NCERT Related theory Mnemonics introduced 22 Years 2003 2024 NEET Solved Papers Chapter wise Detailed Explanations Related NCERT Theory to understand the concept better Why choose this book First Book with Highest Number of Solved NEET Papers Gravitational Wave Astrophysics Carlos F. Sopuerta, 2014-12-15 This book offers review chapters written by invited speakers of the 3rd Session of the Sant Cugat Forum on Astrophysics Gravitational Waves Astrophysics All chapters have been peer reviewed The book goes beyond normal conference proceedings in that it provides a wide panorama of the astrophysics of gravitational waves and serves as a reference work for researchers in the field Gathering Social Network Data jimi adams, 2019-06-03 Gathering Social Network Data provides an important complement to existing books that focus on social network analysis and offers more detailed coverage than is available in existing chapter length treatments In a single centralized source author jimi adams provides 1 a broad overview of the unique set of general principles underlying network data collection and 2 guidance on many particular details needed for the application of these principles to particular research questions As well as chapters on data collection methods the book includes a chapter on data quality and another on ethical considerations Interactions between emotions and social context - Basic, clinical and non-human evidence Maria Ruz, Agustin Ibanez, Sonja A E Kotz, Louise Barrett, Jorge Moll, 2014-07-17 The emotions that we feel and also those that we perceive in others are crucial to the social functioning of both humans and non human animals Although the role of context has been extensively studied in

basic sensory processing its relevance for social cognition and emotional processing is little understood In recent years several lines of research at the behavioral and neural levels have highlighted the bidirectional interactions that take place between emotions and social context Experienced emotions even when incidental bias decision making Remarkably even basic emotions can be strongly influenced by situational contexts In addition both humans and non human animals can use emotional expressions strategically as a means of influencing and managing the behavioral response of others in relation to specific environmental situations Moreover social emotions e g engaged in moral judgment empathic concern and social norms seem to be context dependent which also questions a purely abstract account of emotion understanding and expression as well as other social cognition domains The present Research Topic of Frontiers in Human Neuroscience highlights the need for a situated approach to emotion and social cognition We presented theoretical and empirical work at the behavioral and neural levels that contribute to our understanding of emotion within a highly contextualized social realm and vice versa Relevant contributions are presented from diverse fields including ethology neurology biology cognitive and social neuroscience and as well as psychology and neuropsychiatry This integrated approach that entails the interaction between emotion and social context provide important new insights into the growing field of social neuroscience
