Band 1 Hong Kong School Bloodbath & Nightmare Mrs. Purple Blue, 2026-03-18 In recent years Hong Kong society has frequently mentioned the need to give children a head start in life This phrase acts like a magic spell driving all parents to go to great lengths to get their children into the most prestigious schools For many parents getting into a top school is not only a symbol of honor and pride but also a major achievement in life And I am one of the most typical parents in this group From the moment I learned I was pregnant like many parents in Hong Kong I began meticulously planning how to pave the way for my child to attend a prestigious school This journey was filled with both trials and tribulations including the secrets to success and taboos to avoid as well as moments of setbacks and joy Ultimately we successfully gained admission to our desired school but the process was far from easy What kind of people are the students at these top schools Do they have to be perfect in every way to qualify Or do they need a prestigious family background to support them Or perhaps they also possess compassion and are willing to accept imperfect individuals I have pondered these questions repeatedly After these years of competitive gaming I've come to a clear answer At the same time I've seen through the true nature of Hong Kong's prestigious schools and learned how to survive in this environment I wrote this book hoping that readers will understand whether a prestigious school is truly suitable for their family and their educational philosophy thus making the most appropriate choice for themselves and their children Admittedly without firsthand experience one can never truly distinguish right from wrong However I can say with certainty that I have shed countless tears over the years for my child's education These tears have been mixed with joy and anger confusion and indignation warmth and human kindness and the value of inheritance and the process of nurturing A multitude of emotions both joyful and angry have woven together the path for me and my child toward prestigious schools Regardless I would like to express my heartfelt gratitude to all educators in Hong Kong principals teachers and school teams Without your dedication my child would not have been able to thrive in this land and become an outstanding individual Of course after these years of experience I have also come to understand the survival strategy of prestigious schools there is no best only better The goal is to become a student that makes the school proud and in the definition of a prestigious school this pride often means perfect scores This book is my personal history of hardship and struggle a record of my emotional journey I hope it will inspire you after reading it (Free version) *Abacus & Mental Arithmetic Course Book* Mathewmatician, All four arithmetic examples and exercises are provided with detailed and smooth versions of video teaching It is suitable to Children with strong self learning ability Parents who train their children on their own Kindergarten or Primary school teacher Students majoring in early childhood education or elementary education in universities and colleges Those who are interested in becoming an abacus and mental arithmetic teacher or are interested in running an abacus and mental arithmetic class My Hong Kong Malcolm Jack, 2022-07-29 How was Hong Kong perceived and described by writers from the 1950s during the last colonial period Was it a British city or was it Chinese The writers
