[The Green Space](#) Marion R. Casey, 2024-04-23 Honorable Mention 2025 ACIS Lawrence J McCaffrey Prize for Books on Irish America A historical exploration of the Irish image in popular culture It only took a century or so to segue from phrases like No Irish Need Apply to Kiss Me I'm Irish in American popular culture Indeed the transformation of the Irish image is a fascinating blend of political cultural racial commercial and social influences The Green Space examines the variety of factors that contributed to remaking the Irish image from downtrodden and despised to universally acclaimed To understand the forces that molded how people understand Irish is to see the matrix the green space that facilitated their interaction between the 1890s and 1960s Marion R Casey argues that as Irish evolved between the mid nineteenth and mid twentieth centuries a visual and rhetorical expanse for representing ethnicity was opened up in the

process The evolution was also transnational both Ireland and the United States were inextricably linked to how various iterations of Irish were deployed over time whether as a straightforward noun about a specific people with a national identity or a loose endlessly malleable adjective only tangentially connected to actual ethnic identity Featuring a rich assortment of sources and images The Green Space takes the history of the Irish image in America as a prime example of the ways in which culture and identity can be manufactured repackaged and ultimately revolutionized Understanding the multifaceted influences that shaped perceptions of Irishness holds profound relevance for examining similar dynamics within studies of various immigrant and ethnic communities in the US
