*Ebook: Coaching in Mental Health Service Settings and Beyond: Practical Applications* Jenny Forge, 2022-04-15

Meaningful conversations are at the heart of both coaching and good mental health care. This book is a must if you work in the mental health field and want to develop your coaching skills. Using case studies, example techniques, and reflective questions, Jenny brings coaching conversations to life and inspires readers to coach well with confidence. The book offers guidance that is accessible to people employed in clinical and non-clinical contexts. The skills learnt can be applied to informal coaching style conversations or to more formal coaching sessions. The book provides an overview of coaching and its importance. Includes step-by-step methods for facilitating great coaching conversations. Examines clinical mental health contexts and the role of coaching in recovery-focused care with advantages for service users and practitioners. Considers how coaching approaches benefit the workforce of mental health organizations. Jenny uses her knowledge and experience as a psychiatrist and coach to help readers use coaching principles effectively and appropriately in mental health contexts. This book is essential reading for those who support and stretch people to meet their goals in mental health settings and beyond. This book will be valuable in supporting practitioners in improving their personal effectiveness as organisational leaders, supervisors, managers, or clinicians. Paul Tiffin, Professor of Health Services and Workforce Research, University of York, UK. This is an excellent book about the use of coaching to support mental health. [Greater Expectations: Enabling Achievement for Disadvantaged Students](#) Ian Warwick, Alex Crossman, 2024-02-23. How can greater expectations lead to greater outcomes for schools and the students they teach? The London Academy of Excellence (LAE) Newham is one of the leading sixth form schools in the UK. The LAE's mission is to combat disadvantage by providing ambitious young people from lower income homes with an education on a par with the best available in the independent sector. In its first decade, the LAE sent over 1,300 students to Russell Group universities, over 200 to medical schools, and more than 150 to Oxford or Cambridge. Most of those students were the first in their family to attend a university. The authors sift through the school's practices to reveal universal concepts and ideas that school leaders in any context can consider for their own schools. These ideas include: Understanding the curriculum as a source of social mobility; Planning for high quality destinations from first contact with prospective students; Exploring challenge strategies to achieve academic excellence across subjects. The book culminates in a list of strategies that can drive greater expectations in any school. Alex Crossman is Headteacher and Ian
