RHETORICAL SKILLS

A group of astrophysicists recently detected a strange new signal originating from a distant galaxy. The data suggests the source could be an incredibly massive black hole or, perhaps, a type of neutron star previously unknown to science. Regardless, the team knows they must collaborate effectively, sharing observational time and refining complex algorithms to understand the signal's true nature. Their findings promise to redefine current cosmological models.

Directions: Determine if the sentence is correct. If it is not correct, determine the best way to correct it.

The writer wants to make the relationship between the two main possibilities (black hole and neutron star) clearer. Which choice best accomplishes this goal?

- D. undeniably
