Facebook Prices:

Reputation, Stock Price, and You Nir Kossovsky, Michael D. Greenberg, Robert C. Brandegee, 2013-01-28 All of our working lives we have heard the mantra a reputation lost is never regained Still the firms we work for admire and invest in seem to take costly reputation hits all too often Everyone interested in managing regulating or investing in public firms will find Nir Kossovsky's book a wonderful read through reputations won lost and regained over the last 20 years This is the first book which goes beyond platitudes to explain how to spot value destroying reputation risk and how to manage it or live with its consequences Couldn't be more timely Tom Skwarek Managing Director Structuring and Solutions Group Unicredit Bank AG previously Managing Director Corporate Strategic Solutions Swiss Re There are fiduciary reasons why corporate directors would benefit from reading this book There is also a personal benefit The collapse of a company's reputation can stain the personal reputation of its directors George Miles Member of the Board of Directors AIG EQT Harley Davidson HFF and Wesco Nir Kossovsky has written a gripping tale first educating the reader by distinguishing between corporate branding and reputation then alarming us with case histories of mismanagement of corporate reputational crises and finally reassuring all with a unique solution i.e. insuring against the risk of reputational loss John H Bennett Partner Global Brand Positioning previously Chief Marketing Officer Visa Inc While directors know reputation is important it often is treated as a vague good until something bad happens Nir Kossovsky does a great job with many examples of connecting reputation to stock price and to behaviors before and after crises If you are a director a senior manager or a regulator you should read this book and remember the lessons it offers There is no office which will restore reputation but careful planning and quick response as Nir points out can make a big difference Herbert S Winokur Jr former chairman on Enron's Board Finance Committee and a director of many for profits and non profits A company that takes a hit to its reputation BP after the Gulf oil spill Barclays after fiddling LIBOR News Corp after the phone hacking scandal enters a world of grief market value falls along with employee morale regulatory scrutiny increases and customers defect and boycott Reputation Stock Price and You Why the Market Rewards Some Companies and Punishes Others shows how a company's reputation is created and how reputational value impacts corporate P L and the personal finances of its many stakeholders Better yet it shows what you can do to profit from increase protect monitor evaluate restore and even insure reputational value If your job bonus options salary or investments depend on the stock price of a public company or on the sales profitability or value of a private company you need to read this book to understand the concrete steps you can take to improve your firm's reputation reduce risks to its finances and industry standing and reap the highest reputational dividends Using dozens of case studies Reputation Stock Price and You Explains how stakeholders and their expectations both shape and are shaped by a company's reputation Describes how reputations for ethics innovation good governance quality safety sustainability and security are created and lost Explains why both corporate and individual stakeholder behavior affect reputational value Shows how you

can influence the expectations and behaviors of stakeholders which in turn can improve corporate finances reduce operational risk and increase stock price or market value Provides sensitive tools for tracking and predicting stock price as a function of reputational value metrics Themajority of directors at U S public companies now count reputation as their firm s 1 concern and with good reason A firm with a superior reputation gains many benefits Customers are more willing to pay higher prices vendors and employees offer better terms for their services creditors and equity investors offer better terms for capital and regulators tend to be more forgiving This book shows how to achieve and sustain a stellar reputation and how to convert it into its tangible form reputational value

Underwriting Services and the New Issues Market George J. Papaioannou,Ahmet K. Karagozoglu,2017-07-27 Underwriting Services and the New Issues Market integrates practice theory and evidence from the global underwriting industry to present a comprehensive description and analysis of underwriting practices After covering the regulation and mechanics of the underwriting process it considers economic topics such as underwriting costs and compensation the pricing of new issues the stock price and operating performance of issuing firms the evaluation of new issue decisions and an analysis of the many choices issuers face in structuring new issues Unlike other books it systematically develops a critical perspective about underwriting practices both in the U S and international markets and with a level of detail unavailable elsewhere and an approach that reveals how financial institutions deliver underwriting services Underwriting Services and the New Issues Market delivers an innovative and long overdue look at security issuance Foreword by Frank Fabozzi Covers underwriting contracts and arrangements on pricing and costs Focuses on the financial consequences of the issuance decision for the firm Describes and evaluates decisions regarding the features and structure of new security offerings

Digital Platforms, Imperialism and Political Culture Dal Yong Jin,2015-03-24 In the networked twenty first century digital platforms have significantly influenced capital accumulation and digital culture Platforms such as social network sites e g Facebook search engines e g Google and smartphones e g iPhone are increasingly crucial because they function as major digital media intermediaries Emerging companies in non Western countries have created unique platforms controlling their own national markets and competing with Western based platform empires in the global markets The reality though is that only a handful of Western countries primarily the U S have dominated the global platform markets resulting in capital accumulation in the hands of a few mega platform owners This book contributes to the platform imperialism discourse by mapping out several core areas of platform imperialism such as intellectual property the global digital divide and free labor focusing on the role of the nation state alongside transnational capital

Principles of Microeconomics Martin Kolmar,2021-11-25 This textbook provides a comprehensive and unique introduction to modern microeconomics It adopts an integrative approach positioning the main findings of economics in a broader context It critically reflects on theories from a philosophical standpoint and compares them to approaches found in the social sciences while at the same time highlighting the implications for the design of legal systems and business practices Intended for

undergraduate students the book presents brief examples and comprehensive case studies to help them grasp the real world implications of the theories As such it is suitable for an applied yet technically precise approach to teaching microeconomics as well as for a critical review of the economic mainstream Starting from the question as to why and how societies organize economic activity it analyzes the potential and limitations of various types of market with regard to alleviating scarcity and achieving distributive objectives from an institutional perspective This second edition systematically expands on decision theory by including chapters on traditional decision theory under risk and uncertainty and on behavioral economics as well as a chapter presenting findings from the neurosciences evolutionary psychology and narrative psychology Furthermore there are theoretical additions along with updated case studies and examples from trade wars to pandemics and the climate crisis A new edition of the companion workbook features a wealth of exercises ranging from basic multiple choice questions to challenging mathematical problems and case studies is also available *Introduction to Finance* Ronald W.

Melicher, Edgar A. Norton, 2013-10-28 The fifteenth edition of *Introduction to Finance Markets Investments and Financial Management* builds upon the successes of its earlier editions while maintaining a fresh and up to date coverage of the field of finance Distinguished authors Ron Melicher and Edgar Norton continue to cover the three major financial areas institutions and markets investments and financial management Their effective structure equips instructors with maximum flexibility for how the course is taught and students with an integrated perspective of the different foundations of finance This survey of the basic knowledge concepts and terms of the discipline is appropriate for all students For those who do not plan to take additional courses in finance it provides a valuable overview For those who want to take additional coursework in finance it provides a solid foundation for their future studies and careers **Just Here for the Comments** Gina Siple, 2024-05-28

We all sometimes lurk in online spaces without posting or engaging just reading the posts and comments But neither reading nor lurking are ever passive acts In fact readers of social media are making decisions and taking grassroots actions on multiple dimensions Unpacking this understudied phenomenon this book challenges the conventional perspective of what counts as participatory online culture Presenting lurking as a communication and literacy practice that resists dominant power structures it offers an innovative approach to digital qualitative methods Unique and original in its subject this is a call for internet researchers to broaden their methods to include lurkers participation and presence [Economics For Dummies](#) Sean Masaki Flynn, 2023-10-03 Learn the basics of economics and keep up to date on our ever changing economy Whether you re studying economics in high school or college or you re just interested in taking a peek into the complexities of how money moves *Economics For Dummies* is the go to reference that transforms complex economic concepts into easy to understand reading With the simple explanations in this book you ll master key topics like supply and demand consumer behavior and how governments and central banks attempt to avoid or at least ameliorate business downturns and recessions Plus you ll learn what s going on these days with inflation interest rates labor shortages and the Federal Reserve Studying for

an exam This Dummies guide has your back with online practice and chapter quizzes to help you get the score you need It s time to recon econ the Dummies way Get a grasp on the unchanging fundamentals of economics Dive into behavioral economics and consumer decision making Learn what drives economic growth and inequality Solidify your knowledge with practice questions and quizzes Economics For Dummies is an approachable reference book for students as well as an informative guide for anyone interested in learning more about today s economy

The Venture Alchemists Rob Lalka,2024-05-14 Gold Medalist 2025 Axiom Business Book Awards Business Ethics Future Trends category Shortlist 2024 Best in Business Book Awards Society for Advancing Business Editing and Writing We once idolized tech entrepreneurs for creating innovations that seemed like modern miracles Yet our faith has been shattered We now blame them for spreading lies breaking laws and causing chaos Yesterday s Silicon Valley darlings have become today s Big Tech villains Which is it Are they superheroes or scoundrels Or is it more complicated some blend of both In *The Venture Alchemists* Rob Lalka demystifies how tech entrepreneurs built empires that made trillions Meta started as a cruel Halloween prank Alphabet began as a master s thesis that warned against corporate deception and Palantir came from a campus controversy over hateful speech These largely forgotten origin stories show how ordinary fears and youthful ambitions shaped their ventures making each tech tale relatable both wonderfully and tragically human Readers learn about the adversities tech entrepreneurs overcame the troubling tradeoffs they made and the tremendous power they now wield Using leaked documents and previously unpublished archival material Lalka takes readers inside Big Tech s worst exploitations and abuses alongside many good intentions and moral compromises But this story remains unfinished and *The Venture Alchemists* ultimately offers hope from the people who decades ago warned about the risks of the emerging Internet Their insights illuminate a path toward more responsible innovations so that technologies aren t dangerous weapons but valuable tools that ensure progress improve society and enhance our daily lives [International Journal of Market Research](#) ,2008
