International Student Education in Tertiary Settings Zuo Cheng Zhang, Trevor Grimshaw, Xingsong Shi, 2020-12-28
International Student Education in Tertiary Settings addresses key issues in international student education programme design and implementation. It maps contemporary theories and practices in international students transcultural learning and engagement and showcases successful tertiary education programmes for international students in Australia, China, Japan, the USA and the UK. The book highlights the opportunities for engaging international students that are built into the various programmes, international students' strategies for coping with various challenges of engagement with their educational programmes, and a range of factors that confound their engagement in academic and intercultural learning. The broad coverage of international education programmes in a variety of geographical, sociocultural and pedagogical settings enables the discussion about the complexity of contemporary international student education, shared challenges and productive ways of engaging international students in transcultural learning and the prospect of sustainable engagement. The principles and insights into programme design and implementation to engage international students will be useful for researchers and practitioners in international student education, academics tasked with teaching international students in their class, and administrators responsible for managing and providing services to international students.

The Creative Learning Toolkit Kerry Thalia, 2024-12-30
The Creative Learning Toolkit provides primary educators with inclusive activities that support learning through creative exploration. Each activity is crafted to ensure that children of all abilities can participate and thrive with step-by-step instructions accompanied by insightful tips on adapting activities to different learning needs. The book includes an array of hands-on projects thoughtfully curated to enhance communication, motor skills and more, from imaginative art projects that encourage self-expression to science experiments that ignite curiosity. Each chapter focusses on an area that will achieve creativity and provide progression through the curriculum with ideas, plans, differentiation and extensions, offering activities that provide a solid basis to lessons and can be used flexibly as starters, finishers or full lessons. With a wealth of illustrations to bring each activity to life, this book is a valuable resource for primary school teachers, teaching assistants and SENCOs looking to support and enrich the curriculum with creative activities for all.
