Mesenchymal Stem Cells and Derived Extracellular Vesicles as Next-Generation Biological Drugs for Tissue Regeneration Silvia Barbon, Andrea Porzionato, Antara Banerjee, 2026-01-30

In the field of Regenerative Medicine the preclinical and clinical research on multipotent adult stem cells and in particular mesenchymal stem cells MSCs has prompted the identification of new therapeutic approaches for the treatment of structural tissue organ dysfunctions and congenital or acquired diseases Over the last decades compelling evidence has demonstrated that the powerful therapeutic effects of MSCs are due to paracrine like secretion of cytokines growth factors and chemokines and extracellular vesicles EVs EVs are the paracrine effectors of MSCs that carry a set of molecules capable of influencing the metabolism and even the phenotype of target cells tissues The application of MSCs as biological drugs in cell therapy is based on regulating the inflammatory response and participating in tissue repair and regeneration The therapeutic effect of MSCs is largely ascribed to their immunomodulatory function regulated by the inflammatory environment Among the most important regenerative properties and immune regulation capabilities of MSCs is the secretion of EVs that retain the therapeutic action of the parent cells The use of EVs may help to overcome the safety concerns associated with live cell therapy and become the focus of future clinical approaches in Regenerative Medicine Several researchers have explored the role of MSCs and MSC EVs in various tissue damaging diseases However their key role in the development of immune regulation and stimulation of tissue regeneration still deserves to be clarified prior to their clinical application This Research Topic invites different kinds of contributions e.g. original research articles short communications review articles clinical studies that focus on the preclinical and translational investigation of MSCs and MSC EVs about different therapeutic aspects related to organ tissue regeneration Topics include but are not restricted to the following MSC responsiveness to humoral and mechanical stimuli to promote functional tissue regeneration Interactions between MSCs and natural synthetic biomaterials for the development of advanced tissue substitutes Standardization of MSC EV isolation and enrichment techniques and characterization of their biological structure transcriptome and secretome In vitro and in vivo investigation of the paracrine activity of MSCs and MSC EVs including their immunomodulatory function MSC and MSC EV based therapies in animal models of organ failure and disease

Rural STEM Education Research: Bridging between Uniqueness and Universality Guan Saw, Angela Starrett, Audrey Meador, Hobart Harmon, 2026-01-23

The opposition between uniqueness and universality in rural science technology engineering mathematics and medicine STEM education research is an enduring

feature of the field Theories and methods developed to be universally applicable are constantly adopted or reimaged in studying and understanding certain unique STEM education phenomena or issues within and across rural contexts partly due to the vastness and variety that exists in what is labeled as rural and or STEM education Research ideas and findings focused on a unique rural population or setting often can have universal implications for other rural and non rural populations or settings though not explicitly articulated in many publications Striving to be both unique and universal is a fundamental challenge yet has the potential to advance knowledge and practice in the field of rural STEM education The overall goal of this Research Topic is to introduce and explore the ideas of rural focused and rural reimaged approaches in potentially bridging the gaps between uniqueness and universality in STEM education research Rural focused theories and constructs e g place based education rural identity are centered around populations and issues in rural settings whereas rural reimaged theories and constructs e g urban rural spatial inequality social capital expectancy value beliefs are traditional theories and constructs that are reconceptualized to include rural perspectives in the studies This Research Topic seeks articles that examine both the uniqueness and universality of rural STEM education and educational research utilizing rural focused and or rural reimaged lens or approaches We particularly welcome articles that address unique assets challenges needs opportunities and or lessons learned of rural STEM education while being situated in a broader research discipline as well as articles that explore the commonalities and connections across study cases policies programs practices or contexts of rural STEM education This Research Topic invites theoretical methodological and empirical contributions addressing but not limiting to the following key topics Rural focused topics Defining rurality in STEM education Defining STEM in rural areas Place based STEM teaching learning etc Rural STEM identity belonging etc STEM education in rural serving postsecondary institutions STEM education for local workforce development Rural reimaged topics Urban rural spatial inequality in rural STEM education Community cultural wealth in rural STEM education STEM funds of knowledge of rural learners Underrepresentation of rural students in STEM education Intersectionality in rural STEM education Critical policy analysis in rural STEM education Communities of practice in rural STEM education Research practice partnerships for rural STEM education Articles need to define rurality for interpretation by international readers and describe the uniqueness and universality of the research topics theories methods findings and or implications in the context of rural STEM education

Early Childhood Deaf Education: Teacher Preparation and Instructional Approaches Graham, Patrick, Neild, Nena Raschelle, 2025-09-25 Early childhood is a critical period for language acquisition cognitive development and social emotional growth making high quality education essential for those who are deaf or hard of hearing Effective early childhood deaf education requires specialized teacher preparation and carefully designed instructional approaches that address the linguistic and communication needs of young deaf learners Educators must be trained in general early childhood pedagogy and deaf education strategies including sign language proficiency auditory

verbal techniques and culturally responsive teaching With ongoing debates around language modalities inclusion practices and access to early intervention services the preparation of qualified teachers and the adoption of evidence based instructional methods play a central role in shaping positive educational outcomes for deaf children Early Childhood Deaf Education Teacher Preparation and Instructional Approaches explores teacher preparation for the diverse needs of deaf and hard of hearing children in early childhood settings It examines the effectiveness of various instructional approaches in supporting language development academic readiness and social integration This book covers topics such as literacy young students and special education and is a useful resource for educators academicians researchers and scientists

Natural Compounds in Veterinary Therapeutics Baocheng Hao, Dongan Cui, Shuaiyu Wang, 2026-02-04 Natural compounds exhibit a diverse array of structures originate from extensive sources and are characterized by their multi target multi pathway and broad pharmacological activities These include alkaloids flavonoids phenolic acids tannins terpenes and polysaccharides among other varied natural compounds Historically natural compounds have been a significant source for the discovery of new drugs With the shift of animal husbandry from traditional practices to large scale and intensive farming challenges in the prevention and treatment of animal diseases have intensified due to increased antibiotic resistance emerging diseases and mixed infections Against this backdrop the screening and discovery of natural compounds with therapeutic potential as well as elucidating their mechanisms of action have emerged as crucial strategies to address these challenges By persistently focusing on the pharmacological activities and therapeutic efficacy of natural compounds in veterinary treatments as well as the discovery of novel drug targets this approach provides a theoretical foundation and reference for the creation and development of innovative veterinary medicines This journal primarily features original research on the application of natural compounds in veterinary therapy with a specific focus on the roles of terpenoids flavonoids phenolic acids tannins polysaccharides and alkaloids These natural compounds are investigated for their potential in countering oxidative stress reducing inflammation modulating immune responses combating microorganisms and promoting intestinal health The publication accepts original contributions in the form of reviews and articles

Perspective and Strategies on Newage Education and Creative Learning Shibani Khanra Jha, Meetha V Shenoy, Tamali Bhattacharyya, Padmanabhan Seshaiyer, 2024-10-08 This book presents the proceedings of the International Conference on Best Innovative Teaching Strategies ICOBITS at BITS Pilani on Feb 9 11 2023 It brings together global academicians researchers and industry experts to delve into innovative teaching learning practices Meticulously selected and reviewed by professionals the proceedings offer cross cutting perspectives and strategies in education and creative learning It is organized into four parts and covers Innovative Pedagogical Practices for Technology Enhanced Learning Technology Society and Industry in Higher Education STEM Education and Cultural Studies Gender Studies and Sustainability in Higher Education It provides insights into assessment tools for effectively evaluating the efficiency of teaching methods Part one

explores ICT digital classrooms metaverse based teaching gamification and AI ML based practices Part two delves into the humanistic approach in technical education social networking as an educational tool and outcome based assessment needs Part three addresses future educators requirements through multidisciplinary collaboration in STEM education Part four discusses gender equity structured social inclusion and cultural skills in teaching learning practices This book is a valuable resource for academicians researchers policymakers administrators technocrats and developers actively engaged in education technology across disciplines such as Engineering Sciences Management Humanities and Social Sciences

Engaging with Mathematics in the Early Years Tamsin Meaney, Christiane Benz, Antonella Montone, Benedetto Di Paola, Michele G. Fiorentino, 2026-04-16 This Open Access book provides an overview of research being undertaken in Europe about young children s 1 8 years old mathematics education Exploring a wide variety of different environments wherein mathematics concepts in childhood education this book encompasses the most important findings of the POEM6 conference Following feedback at the conference participants have the opportunity to expand the papers into full length book chapters which will then be peer reviewed This book is especially suited for educators and researchers interested in the development of mathematical conceptualizations in early childhood educational environments

How to Assemble Boats from Kits Robert Scharff, 1961 **TBG2025 ABM, Asia Bike Media ABM TBG2025** **Genetics Abstracts** ,1992 **A Teacher's Guide to Future Ready Classroom** Sarah Tahawwer Ali , A Teacher s Guide to Future Ready Classroom A helpful CPD guide for fresh and veteran teachers to update Teaching practices and pedagogy with technology integration and Ai WHO Classification of Tumours of the Urinary System and Male Genital Organs Holger Moch, Peter A. Humphrey, Thomas M. Ulbright, Victor E. Reuter, 2016 WHO Classification of Tumours of the Urinary System and Male Genital Organs is the eighth volume in the 4th Edition of the WHO series on histological and genetic typing of human tumours This authoritative concise reference book provides an international standard for oncologists and pathologists and will serve as an indispensable guide for use in the design of studies monitoring response to therapy and clinical outcome Diagnostic criteria pathological features and associated genetic alterations are described in a strictly disease oriented manner Sections on all recognized neoplasms and their variants include new ICD O codes epidemiology clinical features macroscopy pathology genetics and prognosis and predictive factors It contains numerous color photographs MRIs ultrasound images CT scans charts and references This book is in the series commonly referred to as the Blue Book series

The Captivating Realm of Kindle Books: A Detailed Guide Revealing the Pros of Kindle Books: A World of Convenience and Flexibility E-book books, with their inherent portability and ease of availability, have freed readers from the constraints of hardcopy books. Gone are the days of carrying cumbersome novels or carefully searching for specific titles in shops. E-book devices, stylish and portable, seamlessly store an extensive library of books, allowing readers to immerse in their preferred reads anytime, anywhere. Whether commuting on a busy train, relaxing on a sunny beach, or simply cozying up in bed, E-book books provide an exceptional level of ease. A Literary Universe Unfolded: Discovering the Wide Array of E-book Stem Kits 2025 Stem Kits 2025 The E-book Shop, a digital treasure trove of literary gems, boasts an extensive collection of books spanning diverse genres, catering to every readers preference and choice. From gripping fiction and thought-provoking non-fiction to classic classics and contemporary bestsellers, the E-book Store offers an exceptional variety of titles to discover. Whether seeking escape through immersive tales of fantasy and exploration, delving into the depths of past narratives, or expanding ones understanding with insightful works of scientific and philosophy, the E-book Shop provides a gateway to a literary universe brimming with limitless possibilities. A Transformative Force in the Bookish Scene: The Lasting Impact of E-book Books Stem Kits 2025 The advent of E-book books has undoubtedly reshaped the bookish landscape, introducing a paradigm shift in the way books are released, disseminated, and read. Traditional publishing houses have embraced the online revolution, adapting their approaches to accommodate the growing need for e-books. This has led to a surge in the availability of Kindle titles, ensuring that readers have entry to a vast array of literary works at their fingertips. Moreover, E-book books have equalized access to books, breaking down geographical limits and offering readers worldwide with similar opportunities to engage with the written word. Irrespective of their location or socioeconomic background, individuals can now immerse themselves in the captivating world of literature, fostering a global community of readers. Conclusion: Embracing the Kindle Experience Stem Kits 2025 E-book books Stem Kits 2025, with their inherent convenience, flexibility, and wide array of titles, have certainly transformed the way we experience literature. They offer readers the liberty to explore the boundless realm of written expression, whenever, everywhere. As we continue to navigate the ever-evolving digital landscape, Kindle books stand as testament to the enduring power of storytelling, ensuring that the joy of reading remains accessible to all.
