Advanced Googling Garrett Wasny, MA, CMC, CITP/FIBP, 2014-06-08 This is the workbook for Garrett Wasny's Advanced Googling professional development seminar. He delivers the course online and in person to accountants, lawyers, doctors, engineers, pro sports executives, and other elite knowledge workers worldwide. In easy-to-understand and non-technical language, the course and manual explain how to customize Google for maximum speed, security, and style. Utilize productivity-enhancing apps and plug-ins that instantly enhance your Google experience and performance. Scan Google with added precision, nuance, speed, and confidence. Discover literally 10x more information that's hiding in plain sight on the Google search results page. Compose advanced search queries that generate more relevant results automatically and continuously monitor your operational landscape using free alert and aggregation services. Use Google's new generation of predictive apps that know what you want without you having to ask. Use little-known hot words and commands to uncover concealed Google signals. Creatively use language in Google search strings to boost relevancy. Transform Google into your backup brain robot assistant and ambient sidekick. Leverage Google hundreds of ways to improve your online research, collaboration, and communications in your professional and personal life.

Examination of Returns, Appeal Rights, and Claims for Refund United States. Internal Revenue Service, 1989

Tax Refunds U.S. Government Accountability Office, 2017-08-04

For tax year 2011, IRS matched over 140 million individual income tax returns against the 1.6 billion information returns it received from third parties such as employers. Generally, this match does not occur until well after refunds are issued. In early 2011, the then IRS Commissioner outlined a vision for a Real Time Tax system, a strategy to improve verification by matching third-party information to income tax returns before refunds are issued, and IRS began exploring options for Real Time Tax. Later that year, GAO was asked to review IRS's strategy for exploring Real Time Tax. This report 1 describes when IRS receives and matches individual tax and information returns, and 2 assesses the extent to which IRS is following leading practices for managing an exploratory effort of this importance. GAO reviewed IRS documents and guidance, including the Internal Revenue Manual, information return forms, and drafts of Real Time Tax planning documents. GAO generated descriptive data on the timing and volume of 25 information returns using IRS's Compliance Data Warehouse database. GAO identified leading practices on planning new initiatives at IRS using past GAO reports, internal control standards, and IRS documents.
