love songs In addition to the love song corpus the evidence discussed in Part One includes second millennium literary texts and royal inscriptions referring to a marital relationship between the ruling king and Inanna Istar Part Two analyzes and discusses the constituent elements of the Sumerian sacred marriage the actors of the marriage and the timing and scene of the related ritual At this point some comparison with the parallel material is inevitable Part Three presents the comparative evidence and a detailed analysis of the thematic elements shared by the different traditions This section also includes a discussion of the concept of the soul in Mesopotamia and in other parts of the ancient world Concepts of the Netherworld and afterlife in Mesopotamia are also examined

Toward a Poetics of Genesis 1-11 Daniel D. Lowery, 2013-04-15 Daniel Lowery commences this work by suggesting that history is a subjective enterprise it is controlled by those who record it The power of the present decides what is counted as history and how the rest of us are told about the past shapes our view of it and concomitantly our outlook for the future In this sense then history fundamentally shapes the future Few questions are more basic to human existence than Who am I Where did I come from What is my place in this world The earliest chapters of Genesis have oriented hearers and readers for millennia in their attempts to address these concerns And so in several respects Genesis shapes the future In this study Lowery sets out to understand more accurately ancient Near Eastern language and claims about origins specifically claims found in Gen 1 11 He uses Gen 4 17 22 as a test case representing the Hebrew tradition explaining how the world came to be civilized Lowery observes that this passage serves a function within the larger narrative of Gen 1 11 akin to other ancient Near Eastern traditions of civilized beginnings Moreover it occupies a place in the overarching narrative of beginnings corresponding to what we find elsewhere throughout the ancient world Lowery focuses mainly on Mesopotamia leaving other cultures for later study This study aims to demonstrate that much of the language of Gen 1 11 is similar in many ways to its Mesopotamian counterparts More explicitly here is an exploration of the nature of the language and terms of Gen 1 11 to ascertain what truths it communicates and how it communicates them At its core this is a study of the genre and generic claims of protohistory as found in Gen 1 11
