Storytelling the Bible at the Creation Museum, Ark Encounter, and Museum of the Bible Paul Thomas, 2020-04-16 Paul Thomas chronicles a multi level reception study of the Bible at both the Creation Museum and the Ark Encounter in Kentucky USA Thomas explores the commercial presentation of biblical narratives and the reception of those narratives by the patrons of each attraction focusing upon three topics what do young Creationists believe how they interpret their beliefs from the Bible and what is the user experience at the museums The volume begins by explaining how Answers in Genesis AiG use Bible passages to support young Earth creationist arguments allowing for the chance to consider the Bible via physical means Thomas then examines how the Creation Museum and the Ark Encounter visitors receive the Bible as presented by AiG and how this presentation informs visitors understanding of the text exploring concepts such as the most prominent displays of the two attractions the larger context of museums and theme parks and the case studies of the Methuselah display and The Noah Interview He concludes with the summary of the user experience generated by the attractions analyzing the degree to which patrons accept negotiate or resist the interpretation of the Bible offered by AiG **Creating the Creation Museum** Kathleen C. Oberlin, 2020-12-15 Investigates how the Christian fundamentalist movement brings Creationism into the mainstream through a Kentucky museum In *Creating the Creation Museum* Kathleen C Oberlin shows us how the largest Creationist organization Answers in Genesis AiG built a museum which has had over three million visitors to make its movement mainstream She takes us behind the scenes vividly bringing the museum to life by detailing its infamous exhibits on human fossils dinosaur remains and more Drawing on over three years of research at the Creation Museum where she was granted rare access to AiG s leadership Oberlin examines how the museum convincingly reframes scientific facts such as modeling itself on traditional natural history museums Through a unique historical dataset of over 1 000 internal documents from creationist organizations and an analysis of media coverage *Creating the Creation Museum* shows how the museum works as a site of social movement activity and a place to contest the secular mainstream Oberlin ultimately argues that the Creation Museum has real world consequences in today s polarized era Red Dynamite Carl R. Weinberg, 2021-10-15 In *Red Dynamite* Carl R Weinberg argues that creationism s tenacious hold on American public life depended on culture war politics inextricably embedded in religion Many Christian conservatives were convinced that evolutionary thought promoted immoral and even bestial social sexual and political behavior The fruits of subscribing to Darwinism were in their minds a dangerous rearrangement of God given standards and the unsettling of traditional hierarchies of power Despite claiming to focus exclusively on science and religion creationists were practicing politics Their anticommunist campaign often infused with conspiracy theory gained power from the fact that the Marxist founders the early Bolshevik leaders and their American allies were staunch evolutionists Using the Scopes Monkey Trial as a starting point *Red Dynamite* traces the politically explosive union of Darwinism and communism over the next century Across those years social

evolution was the primary target of creationists and their ideas have consequences strategy instilled fear that shaped the contours of America s culture wars By taking the anticommunist arguments of creationists seriously Weinberg reveals a neglected dimension of antievolutionism and illuminates a source of the creationist movement s continuing strength Thanks to generous funding from Indiana University and its participation in TOME Toward an Open Monograph Ecosystem the ebook editions of this book are available as Open Access volumes from Cornell Open [cornellpress.cornell.edu/cornell-open](http://cornellpress.cornell.edu/cornell-open) and other repositories

[Righting America at the Creation Museum](#) Susan L. Trollinger, William Vance Trollinger Jr., 2016-05-15 What does the popularity of the Creation Museum tell us about the appeal of the Christian right On May 28 2007 the Creation Museum opened in Petersburg Kentucky Aimed at scientifically demonstrating that the universe was created less than ten thousand years ago by a Judeo Christian god the museum is hugely popular attracting millions of visitors over the past eight years Surrounded by themed topiary gardens and a petting zoo with camel rides the site conjures up images of a religious Disneyland Inside visitors are met by dinosaurs at every turn and by a replica of the Garden of Eden that features the Tree of Life the serpent and Adam and Eve In *Righting America at the Creation Museum* Susan L Trollinger and William Vance Trollinger Jr take readers on a fascinating tour of the museum The Trollingers vividly describe and analyze its vast array of exhibits placards dioramas and videos from the Culture in Crisis Room where videos depict sinful characters watching pornography or considering abortion to the Natural Selection Room where placards argue that natural selection doesn t lead to evolution The book also traces the rise of creationism and the history of fundamentalism in America This compelling book reveals that the Creation Museum is a remarkably complex phenomenon at once a natural history museum at odds with contemporary science an extended brief for the Bible as the literally true and errorless word of God and a powerful and unflinching argument on behalf of the Christian right
