Comparison between Internet Fax Services Dr. Hidaia Mahmood Alassouli, 2021-04-18 Internet faxing uses the same principles as facsimile transmission but it uses a Web interface instead of a fax machine It can be a flexible inexpensive option for transmitting documents Internet fax services usually assign a fax number to each person who signs up for the service people can send faxes to this number and customers can send faxes via e mail without using a fax machine To send a fax through an Internet fax service The sender attaches a document to an e mail message The document can be a scan of a paper document or it can be created in a program like Microsoft Word The sender addresses the message to the recipient s fax number followed by the name of the faxing service for example 18005551234 emailfaxes com The service translates the attachment so that a fax machine can read it The service sends the data across the phone line The recipient s fax machine decodes the data and prints the fax To receive a document from a traditional fax machine through an Internet fax service The sender dials the fax number that the service has assigned to the recipient The fax machine translates the data and transmits it over the phone line The service receives the data translates it into an image file and sends the image to the recipient s e mail address The recipient opens the em ail message and the attachment and views the file As getting cheap internet fax service is important I tried to look for cheap internet fax service that can fax to any country worldwide and can also use PayPal as it is safe payment than credit card Unfortunately I could not find cheap fax service for international destination All internet fax services offer only cheap services to the free zones countries such as usa and Canada I could not find cheap service to international destinations Maybe the best of my search for faxing to international destination was FAX PLUS that allows also paypal But when I tried to subscribe to basic plane using paypal paypal asked me to give them permission to access my registered credit card and I refused that and so I could not subscribe I will divide web sites that I had look to their internet fax services in the following groups 1 Part1 Websites that accepts paypal payments and supports faxing to international countries Some of these are Gotfreefax fax to Faxfresh PamFax biz Faxzero FAX PLUS 2 Part2 Websites that accepts only credit debit card payments and supports faxing to international countries Hellofax J2 global services vendors It includes Metrofax myfax smartfax efax trustfax rapidfax and fax com 3 Part3 Websites that supports faxing to usa and Canada only Nextiva FAXAGE FAXBetter In this report I will compare the internet fax services according to the cost for sending fax to United Arab Emirate I will assume that I have three pages to be sent to any fax number in UAE *Web Stores Do-It-Yourself For Dummies* Joel Elad, 2010-12-15 Are you excited about opening your Web store but a little intimidated too Relax Web Stores Do It Yourself For Dummies is here to guide you step by step through the whole process You ll find the easiest and best ways to choose a provider sign up with payment processors and open for business in no time This make it happen guide for online entrepreneurs walks you through the process of opening an account designing your store for easy shopping creating a catalog that shoppers can t resist processing orders and payments efficiently and much more You ll find
