Cycles The Science Of Prediction:

Cycles Edward R. Dewey,2016-08-08 It is the business of science to predict An exact science like astronomy can usually make very accurate predictions indeed A chemist makes a precise prediction every time he writes a formula The nuclear physicist advertised to the world in the atomic bomb how man can deal with entities so small that they are completely beyond the realm of sense perception yet make predictions astonishing in their accuracy and significance Economics is now reaching a point where it can hope also to make rather accurate predictions within limits which this study will explain This eBook edition comes complete with more than 150 graphs and charts

Cycles: the Science of Prediction Edward Dewey,Edwin Dakin,2013-11-13 In 1947 Edward R Dewey and Edwin F Dakin published their book *Cycles The Science of Prediction* which argued the United States economy was driven by four cycles of different length Dewey devoted his life to the study of cycles claiming that everything that has been studied has been found to have cycles present He carried out extensive studies of cyclicity in economic geological biological sociology physical sciences and other disciplines As a result of his research Dewey asserted that seemingly unrelated time series often had similar cycles periods present and that when they did the phase of these cycles was mostly very similar cycle synchrony He also said that there were many cycles with periods that were related by powers or products of 2 and 3 Dewey understood his cycle theory to be capable of understanding what the market is going to do and of predicting what may come
