A Practical Guide to Data Mining for Business and Industry Andrea Ahlemeyer-Stubbe, Shirley Coleman, 2014-05-12
Data mining is well on its way to becoming a recognized discipline in the overlapping areas of IT statistics machine learning and AI Practical Data Mining for Business presents a user friendly approach to data mining methods covering the typical uses to which it is applied The methodology is complemented by case studies to create a versatile reference book allowing readers to look for specific methods as well as for specific applications The book is formatted to allow statisticians computer scientists and economists to cross reference from a particular application or method to sectors of interest *Wireless Algorithms, Systems, and Applications* Kuai Xu, Haojin Zhu, 2015-07-31 This book constitutes the proceedings of the 10th International Conference on Wireless Algorithms Systems and Applications WASA 2015 held in Qufu Shandong China in August 2015 The 36 revised full papers presented together with 5 revised short papers and 42 invited papers were carefully reviewed and selected from 133 initial submissions The papers present current trends challenges and state of the art solutions related to various issues in wireless networks Topics of interests include effective and efficient state of the art algorithm design and analysis reliable and secure system development and implementations experimental study and testbed validation and new application exploration in wireless networks *Explainable Artificial Intelligence for Intelligent Transportation Systems* Amina Adadi, Afaf Bouhoute, 2023-10-20 Artificial Intelligence AI and Machine Learning ML are set to revolutionize all industries and the Intelligent Transportation Systems ITS field is no exception While ML especially deep learning models achieve great performance in terms of accuracy the outcomes provided are not amenable to human scrutiny and can hardly be explained This can be very problematic especially for systems of a safety critical nature such as transportation systems Explainable AI XAI methods have been proposed to tackle this issue by producing human interpretable representations of machine learning models while maintaining performance These methods hold the potential to increase public acceptance and trust in AI based ITS FEATURES Provides the necessary background for newcomers to the field both academics and interested practitioners Presents a timely snapshot of explainable and interpretable models in ITS applications Discusses ethical societal and legal implications of adopting XAI in the context of ITS Identifies future research directions and open problems *Fuzzy Sets, Rough Sets, Multisets and Clustering* Vicenç Torra, Anders Dahlbom, Yasuo Narukawa, 2017-01-13 This book is dedicated to Prof Sadaaki Miyamoto and presents cutting edge papers in some of the areas in which he contributed Bringing together contributions by leading researchers in the field it concretely addresses clustering multisets rough sets and fuzzy sets as well as their applications in areas such as decision making The book is divided in four parts the first of which focuses on clustering and classification The second part puts the spotlight on multisets bags fuzzy bags and other fuzzy extensions while the third deals with rough sets Rounding out the coverage the last part explores fuzzy sets and decision making **Natural Language Interfaces to Databases** Yunyao Li, Dragomir

Radev, Davood Rafiei, 2023-11-24 This book presents a comprehensive overview of Natural Language Interfaces to Databases NLIDBs an indispensable tool in the ever expanding realm of data driven exploration and decision making After first demonstrating the importance of the field using an interactive ChatGPT session the book explores the remarkable progress and general challenges faced with real world deployment of NLIDBs It goes on to provide readers with a holistic understanding of the intricate anatomy essential components and mechanisms underlying NLIDBs and how to build them Key concepts in representing querying and processing structured data as well as approaches for optimizing user queries are established for the reader before their application in NLIDBs is explored The book discusses text to data through early relevant work on semantic parsing and meaning representation before turning to cutting edge advancements in how NLIDBs are empowered to comprehend and interpret human languages Various evaluation methodologies metrics datasets and benchmarks that play a pivotal role in assessing the effectiveness of mapping natural language queries to formal queries in a database and the overall performance of a system are explored The book then covers data to text where formal representations of structured data are transformed into coherent and contextually relevant human readable narratives It closes with an exploration of the challenges and opportunities related to interactivity and its corresponding techniques for each dimension such as instances of conversational NLIDBs and multi modal NLIDBs where user input is beyond natural language This book provides a balanced mixture of theoretical insights practical knowledge and real world applications that will be an invaluable resource for researchers practitioners and students eager to explore the fundamental concepts of NLIDBs

The International Conference on Health Informatics Yuan-Ting Zhang, 2013-11-20 This volume presents the proceedings of the International Conference on Health Informatics ICHI The conference was a new special topic conference initiative by the International Federation of Medical and Biological Engineering IFMBE held in Vilamoura Portugal on 7-9 November 2013 The main theme of the ICHI2013 was Integrating Information and Communication Technologies with Biomedicine for Global Health The proceedings offer a unique forum to examine enabling technologies of sensors devices and systems that optimize the acquisition transmission processing storage retrieval of biomedical and health information as well as to report novel clinical applications of health information systems and the deployment of m Health e Health u Health p Health and Telemedicine *20th ISPE International Conference on Concurrent Engineering* C. Bil, J. Mo, J.

Stjepandić, 2013-09-12 As a concept Concurrent Engineering CE initiates processes with the goal of improving product quality production efficiency and overall customer satisfaction Services are becoming increasingly important to the economy with more than 60% of the GDP in Japan the USA Germany and Russia deriving from service based activities The definition of a product has evolved from the manufacturing and supplying of goods only to providing goods with added value to eventually promoting a complete service business solution with support from introduction into service and from operations to decommissioning This book presents the proceedings of the 20th ISPE International Conference on Concurrent Engineering

held in Melbourne Australia in September 2013 The conference had as its theme Product and Service Engineering in a Dynamic World and the papers explore research results new concepts and insights covering a number of topics including service engineering cloud computing and digital manufacturing knowledge based engineering and sustainability in concurrent engineering Current Issues in Tourism, Gastronomy, and Tourist Destination Research Hera Oktadiana, Myrza Rahmanita, Rina Suprina, Pan Junyang, 2022-05-25 The book focuses on contemporary research on tourism gastronomy and tourist destinations presented at the 3rd Tourism Gastronomy and Destination International Conference TGDIC 2021 It serves as a platform for knowledge and experience sharing and invites tourism scholars practitioners decision makers and stakeholders from all parts of society and from various regions of the world to share their knowledge experience concepts examples of good practice and critical analysis with their international peers The research papers presented at the conference were organized into three main categories tourism gastronomy and tourist destinations written by authors from various countries such as Indonesia China India Switzerland UK Portugal and Hungary **Transactions of the American Institute of Electrical Engineers**, 1927 *Chemical Engineering Catalog*, 1918 **Data Mining: Concepts and Techniques** Jiawei Han, Micheline Kamber, Jian Pei, 2011-06-09 Data Mining Concepts and Techniques provides the concepts and techniques in processing gathered data or information which will be used in various applications Specifically it explains data mining and the tools used in discovering knowledge from the collected data This book is referred as the knowledge discovery from data KDD It focuses on the feasibility usefulness effectiveness and scalability of techniques of large data sets After describing data mining this edition explains the methods of knowing preprocessing processing and warehousing data It then presents information about data warehouses online analytical processing OLAP and data cube technology Then the methods involved in mining frequent patterns associations and correlations for large data sets are described The book details the methods for data classification and introduces the concepts and methods for data clustering The remaining chapters discuss the outlier detection and the trends applications and research frontiers in data mining This book is intended for Computer Science students application developers business professionals and researchers who seek information on data mining Presents dozens of algorithms and implementation examples all in pseudo code and suitable for use in real world large scale data mining projects Addresses advanced topics such as mining object relational databases spatial databases multimedia databases time series databases text databases the World Wide Web and applications in several fields Provides a comprehensive practical look at the concepts and techniques you need to get the most out of your data Journal of the American Institute of Electrical Engineers, 1920 Includes preprints of Transactions of the American Institute of Electrical Engineers ISSN 0096 3860 **Mining and Metallurgy**, 1928 Petroleum Register, 1922 **Mining and Scientific Press**, 1922 **Proceedings of the American Institute of Electrical Engineers**, 1920 The Chemical News and Journal of Physical Science, 1902 **Journal of the Western Society of Engineers** Western Society of Engineers
