The Campus Trilogy David Lodge,2011-10-04 A trio of dazzling novels in a comic mode that the author has now made completely his own a cause for celebration The New York Times Book Review David Lodge s three delightfully sophisticated campus novels now gathered together in one volume expose the world of academia at its best and its worst In Changing Places we meet Philip Swallow British lecturer in English at the University of Rummidge and the flamboyant American Morris Zapp of Euphoric State University who participate in a professorial exchange program at the close of the tumultuous sixties Ten years later in Small World older but not noticeably wiser they are let loose on the international conference circuit along with a memorable and somewhat oversexed cast of dozens And in Nice Work the leftist feminist Dr Robyn Penrose at Rummidge University is assigned to shadow the director of a local engineering firm sparking a collision of ideologies and lifestyles that seems unlikely to foster anything other than mutual antipathy

Annual Report on English and American Studies ,2008 **America and the Americans in Postwar British Fiction** Stephan-Alexander Ditze,2006 National images have been firmly established in western literatures since classical antiquity Since the seventeenth century

these images have made an impact on the reception of the literary works in question and have influenced the production of later generations of writers. Despite this early interest of artists in national images it was not until the early twentieth century that such images were addressed by literary scholarship. However, imagology, a branch of Comparative and General Literature, is still marked by a widespread terminological incoherence. The present study wants to help eliminate this deficit. To this end, the basic notions image and stereotype are unambiguously defined and made applicable for practical criticism by using the newly coined concept of *imagene* and a structuralist model of images. The explanatory power of the conceptual framework proposed is demonstrated by in-depth analyses of five British novels of the second half of the twentieth century which focus on the United States of America and its inhabitants.

Politics and History in William Golding Paul Crawford, 2002
Provides a politicized and historicized reading of William Golding's novels as a counter to previous universalizing criticism. Paul Crawford here argues that an understanding of fantastic and carnivalesque modes in Golding's work is vital if we are to appreciate fully his interrogation of 20th century life.

Historical Studies and Literary Criticism Jerome J. McGann, California Institute of Technology, Weingart Foundation, 1985
For the past fifty years literary studies and criticism have been dominated by formalist structural and text centered approaches. The editor of this volume, Jerome J. McGann, has been arguing in recent years for more expansive and contextual procedures. In this collection of essays he has brought together a group of distinguished collaborators including Terry Eagleton, Marilyn Butler, Cecil Lang, and Sandra Gilbert whose work emphasizes the importance of social and historical methodologies for the study of literary texts. Representing a variety of viewpoints and critical strategies, these critics together demonstrate the sociohistorical dimensions of literary works, provide examples of how studies of such literary works might be pursued, and suggest some central areas of investigation. The resulting effort to reconstitute some vital and neglected critical approaches will engage students and scholars of literature and move them to reassess current critical assumptions. Fundamental to this collection is the sense that literary texts are more than self-enclosed verbal constructs. In his introduction to the essays, editor McGann examines how and why the concept of referentiality fell into disfavor with modern literary schools. The antihistorical bias of the New Critics, Structuralists, and Deconstructionists, he argues, ultimately limit their critical vision. For literature, McGann stresses, has various points of reference to a larger world of social interactions and historical influence, only by recognizing and reconstructing that world can we mine the full meaning and communicative potential of a fictional work.
