Blending sociocognitive research and innovative strategies, the book shows how to foster inclusive literacy instruction, student agency, and meaningful engagement in today's literacy-rich world. *The Coming Food Crisis* John Klar, 2026-03-17 They're coming for your food. Multinational corporations, animal rights extremists, climate crusaders. Together, they're waging a relentless assault on America's farms and your freedom to eat what you choose. In *The Coming Food Crisis*, John Klar rips back the curtain on the hidden power grab reshaping how and what we eat. Every year, more farm families vanish, replaced by corporate giants and imported products. As food prices soar and supply chains wobble, Klar exposes the powerful forces: political activist and corporate turning America's and the world's food supply into a tool of control. He reveals how agenda-driven climate and animal rights policies drive up costs and destroy family farms; how reckless economic policies and global monopolization threaten famine and chaos; and how ultra-processed food is undermining our health. This book is Klar's urgent call to wake up, fight back, and reclaim food sovereignty before disaster strikes. If Americans don't stand up for their farms, they surrender control over their most basic human need. Because once you lose your food, you lose everything. [Language Learning Beyond the Classroom](#) Jocelyn Guevarra, 2026-03-05 Essay from the year 2026 in the subject Didactics - English course Language Teaching - language English abstract This essay examines the role of social media in second language acquisition (SLA), situating its impact within established theories and empirical research. Drawing on Krashen's Input Hypothesis, Vygotsky's Sociocultural Theory, and Wenger's Communities of Practice, it shows how platforms such as YouTube, TikTok, Instagram, and Facebook provide authentic input, foster interaction, and support identity construction. Empirical studies indicate that active participation in online communities enhances vocabulary, pragmatic competence, intercultural awareness, and learner motivation. At the same time, challenges such as misinformation, distraction, fragmented learning, and unequal access complicate its integration into formal pedagogy. The essay argues that social media functions as a hybrid learning environment, bridging formal and informal processes while reshaping learner autonomy and cultural participation. By critically assessing both opportunities and limitations, it underscores the need for pedagogical frameworks that help learners navigate digital spaces responsibly and inclusively. Ultimately, the essay contributes to debates in applied linguistics by positioning social media as a powerful yet complex force in language education, with implications for practice.
