AI Strategy for Business Leaders: From Core Concepts to Generative AI, Agentic AI, Ethics, and Strategic Implementation Ken Kwong-Kay Wong, 2026-03-16 AI Strategy for Business Leaders From Core Concepts to Generative AI

Agentic AI Ethics and Strategic Implementation provides a timely and practical guide for executives and decision makers navigating the rapidly evolving landscape of artificial intelligence In this book Ken Wong demystifies the complexities of AI and presents its concepts in a clear accessible way for leaders who may not have a technical background Through practical explanations and step by step strategies the book helps organizations understand how AI can be integrated into business processes while addressing critical issues such as ethical responsibility potential workforce impacts and the broader socio economic implications of intelligent technologies Going beyond theoretical discussion the book explores the transformative role of emerging technologies such as Generative AI and the rapidly developing field of Agentic AI systems capable of planning making decisions and taking actions with minimal human intervention Drawing on real world examples and practical insights Wong shows how AI already shapes everyday life and business operations from personalized recommendations to intelligent automation Designed especially for leaders seeking clarity in a rapidly changing technological environment this book offers both a strategic roadmap and a practical compass for organizations aiming to adapt innovate and thrive responsibly in the age of artificial intelligence Rise and Resist Janice Gassam Asare,

PhD, 2026-02-24 This powerful guide draws on strategies from Black resistance movements and merges historical wisdom with modern technology to combat the DEI backlash and build sustainable workplace equity in today s hostile climate As the unprecedented backlash against diversity equity and inclusion intensifies with corporations dismantling initiatives lawmakers passing anti DEI legislation and post George Floyd promises abandoned this tactical handbook arms advocates with revolutionary resistance strategies drawn from Black historical movements Dr Janice Gassam Asare transforms centuries of Black resistance wisdom from Underground Railroad networks to civil rights organizing tactics into modern resistance plans wielding ethical AI as a force multiplier to create sustainable change that outlasts corporate whims and political cycles Each chapter grounds modern workplace tactics in revolutionary approaches of more than twenty prominent Black historical figures including the following Ida B Wells Documentation techniques for workplace injustice inspired by her work Ella Baker and Fred Hampton Coalition building methods from the American civil rights movement Toni Morrison and Angela Davis Narrative control strategies drawn from their celebrated writing Whether you re a DEI practitioner navigating corporate pushback an employee experiencing equity rollbacks or a leader committed to sustainable inclusion this handbook provides battle tested strategies for preserving workplace equity even in hostile environments This isn t just about surviving the backlash It s about reimagining workplaces where everyone thrives **Rethinking Techno-Politics in the Digital Age:**

Global Technology Relations and Security Arslan, Alp Cenk, Tinas, Murat, 2025-10-08 As digital technologies continue to

grow in every facet of society rethinking techno politics in the digital age has become imperative to growth The intersection of technology and power is reshaping governance and raises the questions about control and accountability This evolving landscape calls for a reexamination of how policies are shaped who benefits from technological advancements and how democratic principles can be preserved in an increasingly data driven world Rethinking Techno Politics in the Digital Age Global Technology Relations and Security explores the rise of digital infrastructures the impact of new technologies on political and social culture and the strategic role of technology in global power dynamics This book fills a critical gap in the discourse surrounding technology s role in governance security and societal transformations Covering topics such as politics governance and technology this book is an excellent resource for academicians policymakers and technology professionals

Value Co-Creation in Web 3.0 Robin Qiu,2026-01-01 This book explores the architecture and framework for co creating the most valuable and promising data in the future Internet often referred to as Web 3 0 from the end user s perspective Unlike the current platform economy where user s daily usage and activity data is predominantly held by individual organizations Web 3 0 advocates for decentralized data management across interconnected platforms This approach aims to fully utilize the vast amounts of data generated by the increasingly connected physical world The book explains how Web 3 0 can be developed with fundamental and technological support to enhance decentralized data management and maximize benefits for end users Additionally it presents two use cases to illustrate how value co creation can be achieved using Web 3 0 The book is aimed primarily at students from business and engineering schools It also serves as a valuable teaching resource for instructors in management information systems MIS information systems information science and technology and data and computing sciences Additionally professionals interested in digital transformation blockchain technology data analytics AI and digital economy policymaking will find it highly relevant
