character password does not make it 10% stronger Easy to remember passwords like correct horse battery staple will not solve all your password problems All password managers are not pretty much the same Passkeys are beginning to make inroads and may one day replace most but not all of your passwords Your passwords will not be safest if you never write them down and keep them only in your head But don't worry the book also teaches you a straightforward strategy for handling your passwords that will keep your data safe without driving you batty
