**CLAUDE AT WORK: The Complete Business Guide to AI That Actually Works** Jens Belner, 2026-03-12

Most business owners are using AI wrong. They open a chat window, type something vague, get something generic, and conclude that AI isn't ready for serious business use. They're not wrong about the output; they're wrong about the cause. The problem isn't Claude; it's the approach. *Claude at Work* is the complete, no-jargon business guide to using Claude AI the right way, from your very first prompt to running automated systems that generate leads, handle customer communication, and produce content while you sleep. Written for entrepreneurs, SMB owners, and executives who want results, not theory, this book shows you exactly what to do with it, task by task, industry by industry, system by system. Every chapter includes ready-to-use prompts you can copy, customize, and deploy immediately. What you'll learn across 29 chapters and 6 parts:

- Part One: Getting Started** Understand how Claude actually works, set it up for business use, and build the daily habit that compounds into a genuine competitive advantage. Includes an honest comparison of Claude vs. ChatGPT vs. Gemini so you know which tool to use for which job.
- Part Two: Daily Business Use** Transform how you handle email, marketing, research, customer service, sales, HR, and operations. Cut content creation time by 80%. Write proposals that convert. Handle difficult correspondence with confidence.
- Part Three: Advanced Prompting** Master the techniques that separate power users from casual ones: system prompts, persona design, chain prompting, prompt libraries. Learn to make Claude behave like a specialist trained for your specific business.
- Part Four: Automation and Workflows** Connect Claude to your CRM, email platform, booking system, and business tools using n8n, Make.com, or Zapier. Build your first automated lead capture workflow, step by step. Discover voice AI: the technology that answers every inbound call, books appointments, and captures leads 24/7.
- Part Five: Vertical Playbooks** Dedicated chapters for clinics and healthcare practices, gyms and fitness studios, restaurants and hospitality, coaches and consultants, trades and home services, estate agents, and spa hotels. Each chapter covers the three biggest pain points in that industry and the exact AI systems that solve them.
- Part Six: Scaling and Future Proofing** Build an AI-first business culture your team actually embraces. Navigate GDPR and the EU AI Act with practical, SMB-relevant guidance. Measure the ROI of your AI investment. And prepare for what's coming next: agentic AI, multimodal tools, and voice and video AI that will reshape SMB operations.
