Sampling in Judgment and Decision Making Klaus Fiedler, Peter Juslin, Jerker Denrell, 2023-06-15 Sampling approaches to judgment and decision making are distinct from traditional accounts in psychology and neuroscience. While these traditional accounts focus on limitations of the human mind as a major source of bounded rationality, the sampling approach originates in a broader cognitive ecological perspective. It starts from the fundamental assumption that in order to understand intra-psychic cognitive processes, one first has to understand the distributions of and the biases built into the environmental information that provides input to all cognitive processes. Both the biases and restriction but also the assets and capacities of the human mind often reflect to a considerable degree the irrational and rational features of the information environment and its manifestations in the literature, the Internet, and collective memory. Sampling approaches to judgment and decision making constitute a prime example of theory-driven research that promises to help behavioral scientists cope with the challenges of replicability and practical usefulness.

**Stuck On You** Monica Walters, 2023-01-24 Life can be hard to navigate at times, but for Lazarus Mitchell, it's been a constant battle. Marrying his high school sweetheart and putting his dreams on hold to help her fulfill hers, he kept pushing through life's adversities in hopes of seeing better days. Throughout the journey, he realized that she didn't have the tenacity he had or the wherewithal to look difficulty in the face and choose to overcome it. Feeling heavily depressed and discouraged for the first time in his life, he worries that despair will overtake him. So he chooses to begin anew. He enrolls in college, determined to fulfill the dreams he put on hold. He hires a tutor to help him get acclimated once again, and upon first sight of her, he realizes that love hasn't given up on him. Kiana Sol Jordan is a matriculating graduate student on the campus of Lamar University. She loves science, but chemistry sparks her interest the most, and her love for the subject makes her want to help others understand and love it too. Tutoring is gratifying and constantly makes her smile, but when a more seasoned student requests her tutelage, she feels a lot more than gratification. The fact that he's twelve years her senior does nothing to diminish her attraction to him. For once, she wants to take a chance on something not so safe, and the excitement of that has her feeling things she never thought possible. Lazarus has a lot of baggage to let go of, and Kiana wants to help him along during the process. But that decision isn't welcomed by the most important people in her life, causing her to question her actions more than she should. Kiana wonders if

love is worth her ignoring her parents and sister s warnings regarding her new relationship while Lazarus wonders if choosing love is worth the adversity that will come with it Can Kiana cut ties with her family to choose the ultimate love Can Lazarus s ability to love be resurrected and strengthened enough to cause him to become the warrior he once was
