**A Complete Creation Field Theory Model Based on Symmetry Breaking of the Homogeneous 5D Space-Time Universe with Primordial Magnetic Monopole Frequencies** Wan Ki CHOW, Peter Chin Wan Fung, Kai Wai Wong, 2022-06-20 A book titled *The Five Dimension Space Time Universe* A creation and grand unified field theory model was published by Scientific Research Publishing USA in 2014 Since then two more friends Professors Fung and Chow joined the effort Many more articles with rigorous mathematical foundation extensions were published including solving for the first time the explicit form of the Maxwell s magnetic monopoles It is then clear why there must be a Bose Einstein vacuum as suggested by Higgs and all matters can be considered as thermal excitations from it In fact the theory works extremely well from astronomical objects like stars and planets to the precise calculated mass for the proton and neutron leading to revelation of a precise quark mass of 33 MeV A first implication that a General Musical Code might exist in the 5D homogenous space time manifold Perhaps the most insightful is that the 4th space dimension within the 5D homogenous manifold is actually an entangled variable to the Fermat s amplitude  $r$  according to Euler Theorem on 5D manifold One important consequence is that in the Fourier energy and momentum representation the 4th momentum variable is completely imaginary Such a result leads to the emergence of the Higgs bosons with a primordial spectrum Based
