Brand It Like Serhant Ryan Serhant,2024-04-22 Bestselling author and real estate television

and media icon Ryan Serhant shares his proven strategy to build your brand from scratch **Brand It Like Serhant** brings readers through Ryan's three-step strategy that transformed him from that broker above Burger Heaven into the founder of SERHANT, the most recognized real estate brand in the world. Whether you're a real estate broker, a hair stylist, or a freelance contractor, your end goal is the same: get leads and generate new business. You want people to think of you: the split second they consider looking for a new apartment, getting highlights, or finally redoing that guest bathroom. And while building a brand from scratch sounds daunting, the authentic you is already a brand you just might not know it yet. In Phase One, you'll discover your core identity from your written brand statement to fonts, colors, posing for photos, and more. In Phase Two, you'll learn how to deliver consistent content realistically by understanding social platforms and making the right choices for your work. And in Phase Three, you'll shout it from the mountaintops, share your accolades, leverage growth, and achieve your full potential. Weaving interviews with household names like Gary Vaynerchuk, Rebecca Minkoff, and Mark Manson, custom worksheets to get organized, and a case study of one person's progress through each chapter, **Brand It Like Serhant** is a textbook, classroom, and teacher rolled into one. From start to finish, Ryan's actionable guide empowers you to build an authentic, enduring brand by becoming known for what you want to be known for and skyrocket your career. **Move Slowly and Build Bridges** Robert W. Gehl, 2025 **Move Slowly and Build Bridges** tells the story of activists, software developers, artists, and everyday people who have built the fediverse, a large, noncentralized alternative social media system. In contrast to big tech corporations like Meta, TikTok, or X, the fediverse is comprised of thousands of small, independent communities who use a powerful internet protocol to communicate with one another. These small communities can govern themselves and moderate content at the human scale, in stark contrast to the global and advertiser-friendly interests of Meta or X. The Mastodon network is perhaps the most notable and successful platform in the fediverse. Founded in 2016, Mastodon has positioned itself as an alternative to Twitter, one that can be completely under the control of its members, from its daily operations to its underlying software. Making a noncentralized, ethically run social media system is no easy task. The people building the fediverse have faced burnout, bigotry, angry debates, and death threats. And they face constant nagging doubts: can we really do this? Can noncentralized social media survive? Can we all of us have our own social media? In this thoroughly researched book, Robert W. Gehl argues that the answer is yes, but it won't be easy. *Facts not Fakes: Tackling Disinformation, Strengthening Information Integrity* OECD, 2024-03-04 Rising disinformation has far-reaching consequences in many policy areas, ranging from public health to national security.
