This book is for the person who wants to start a side business but feels overwhelmed by technology. You might be a parent looking for extra income or a student wanting to learn a new skill. You do not need any prior experience or a large following to succeed with this method. We have designed this guide to take you from a total beginner to your first sale in just forty-eight hours. You will follow a clear path that removes the guesswork from the process. Each step is a simple task that builds toward a professional digital shop. This roadmap ensures you spend your time on the things that actually lead to earning money. By following these steps, you can build a business that works for you even while you sleep. **What You Will Learn** In the first chapter, you will learn how to activate your shop status immediately. We show you how to bypass the five-thousand-follower limit that usually stops people from starting. You will also learn the safety rules to keep your account in good standing. This allows you to start your journey today rather than waiting months to grow an audience.

Fear Knot Natasha Swalve, Ruth DeFoster, 2025-10-21 Why do we fear Halloween candy but not vending machines? Why do witch hunts recur so often in history? How dangerous are serial killers really? The Fear Knot examines our most common, deeply held fears, unpacking which are valid and which are misguided, explaining the history of how our irrational fears developed and how we can unlearn them. We live in a world seemingly rife with danger: a villainous stranger or new deadly bacteria lurking around every corner. So how do we sort through these fears, determining which are well-founded and which have been manufactured? How can our biases and psychology allow these fears to overtake us, and how can we learn to think logically in a world driven by sensationalism? In this lively and timely tour, psychologist Natasha Swalve and journalism professor Ruth DeFoster lead readers through the history and psychology behind our most visible and sensational cultural fears, beginning with the most personal fear within our bodies and moving outward to the home, our country, and finally to our broadest society-level fears. From micro-fears like how our fear of vaccines has led to measles epidemics to the broad existential dread associated with climate change and gun violence, The Fear Knot examines the toll

our fears take on us on an individual and societal level Exploring how shared culture media consumption and even our own brain can help drive incorrect beliefs about risk Swalve and DeFoster help readers to make informed evidence based decisions about fear and risk and along the way to learn how to think critically examine your own beliefs and become confident consumers of media and popular culture Combining psychology and journalism in short light hearted chapters The Fear Knot gives readers a fresh look at Americans perceptions of risk and danger with an emphasis on how to recognize misinformation or biases updated to include the most recent fears that Americans face in the 21st century and the real dangers that we may be ignoring
